Agenda and Materials – December 14, 2021

Agenda

HIPAA Compliant Teleconferencing

- J. Sibenaller

Data Governance & Integrity

- S. Malisch, J. Sibenaller

Project Portfolio Prioritization

- S. Malisch, J. Sibenaller

HIPAA Compliant Teleconferencing

Scope

- Determine the HIPAA compliance impact of sharing private health information during online collaboration sessions/meetings

Concerns

- Pre and post-pandemic, the use of online meeting technology for healthcare purposes would require us to sign a Business Associates Agreement (BAA) with providers (like Zoom & Microsoft)
 - We believe...
Signing a BAA would make us a covered entity & require compliance with the HIPAA Security Rule (XL enterprise undertaking, additional costs involved)
- Ease of enforcement of compliance with HIPAA rules during pandemic
 - When does this expire? What happens when it does?
 - What are the covered entity status impacts?

HIPAA Compliant Teleconferencing

Activities

- Determined subject matter experts for use cases/needs
 - Social Work
 - Medicine
 - Nursing
 - Health Sciences & Public Health
 - Education
 - Added Wellness, Research, Community & Family Services
- Engaged Office of the General Counsel (OGC) to validate HIPAA policy requirements & impacts
- Scheduled interview sessions, conducted 1st session

HIPAA Compliant Teleconferencing

Next Steps

- Complete all interviews
- Document needs & use cases
- Determine product changes regarding BAA agreements
- Identify appropriate product direction
- Validate approach with OGC
- Provide product recommendation to HIPAA Compliance Officer, Provost & CIO
- Communicate actions to the ITESC
