

CISt 207: Art of the Roman World

Spring 2024 Tuesdays 9:00 AM-12:00 PM on-site + Sala

Instructor: Albert Prieto, M.Litt, PhD (Classics, History, Archaeology), aprieto2@luc.edu

Office hours: before, during, and after class

Introduction and Course Description

This course explores the purposes, meanings, materials, and messages of visual culture in Rome, in the form of art, architecture, and urban organization, from the founding of a village on the Palatine hill in the 8th century BC to the advent of Christianity as the state religion in the early 4th century AD, when the city reached the peak of its development. Emphasis is placed on topography (= spatial organization), chronology, materials/media, and cultural identity as Rome transitions from one of hundreds of competing city-states in Italy, to preeminent power of Italy with interests overseas, to capital of an empire stretching from Spain to Syria and from Britain to North Africa. Consequent changes in the art, architecture, and urban organization of Rome are explored both synchronically (within a given period of Roman history) and diachronically (across periods) in relation to significant historical events and subtle cultural trends. Portrait busts, statuary, wall and floor surfaces, furniture, decorations, utensils of all shapes and sizes, public and private structures, and even the entire city are analyzed as reflections and conveyors of the identity, interests, aspirations, and social, economic, religious, political, and military preoccupations of the human beings who commissioned or “consumed” them.

Learning Outcomes

As a result of this course the student will be able to:

- assess how the visual language of the art and architecture of Rome, both public and private, originated, developed, and changed between ca. 750 BC and AD 350;
- identify and describe the origins, developments, and changes in terms of historical events and personalities, available resources, and internal and external cultural factors representing real and specific human needs and desires;
- describe the visual language of Roman art and architecture in Rome using both broad principles and specific examples illustrated by visits to significant preserved structures and museum collections, as well as the original context and meaning of artworks currently housed in museums;
- identify, define, and describe the most significant recent and historic research issues and methodologies in Roman art, architecture, and urban organization;
- demonstrate a basic proficiency in researching and analyzing issues pertaining to Roman art, architecture, and urban organization.

Required Textbooks and Materials

- S. L. Tuck, A History of Roman Art. Chichester: Wiley-Blackwell 2015. [Available online \(ebook\)](#)

Attendance Policy

In accordance with the JFRC mission to promote a higher level of academic rigor, all courses adhere to the following absence policy. Prompt attendance, preparation and active participation in course discussions are expected from every student.

- For all classes meeting once a week, one unexcused absence is permitted.

As this course meets once a week, a single unexcused absence will be permitted. **Unexcused absences beyond this will result in a 1% lowering of the final course grade for every absence beyond the “approved limit.”**

Assessment Components and Schedule

Assessment	Date	%
Attendance and participation	N/A	10%
Assignment 1	2/6	10%
Mid-term examination	2/27	25%
Final examination	4/23	35%
Assignment 2	4/25	20%
TOTAL		100%

Assessment Descriptions

The mid-term examination will test the student’s understanding of the major concepts covered in the first half of the course. The final examination will test the student’s cumulative understanding of the material covered in the course, focusing on the second half. Both exams will be based comprehensively on notes taken during class lectures and discussions, the assignments, and the course readings.

- A. The **mid-term examination** will consist of
1. a series of terms (persons, places, concepts, dates) and images to be identified briefly (in 2-4 sentences) in relation to their significance for the history of Roman art, architecture, and urban organization;
 2. a map to be labeled (for example, with the names of features in a Roman city); and
 3. a timeline of significant events or trends in the history of Roman art, architecture, and urban organization.

B. The **final examination** will consist of

1. a series of terms (persons, places, concepts, dates) and images to be identified briefly (in 2-4 sentences) in relation to their significance for the history of Roman art, architecture, and urban organization;
2. a map to be labeled (for example, with the names of features in a Roman city);
3. a timeline of significant events or trends in the history of Roman art, architecture, and urban organization; and
4. an essay (5+ pages) addressing themes in the history of Roman art, architecture, and urban organization.

C. **Assignment 1** is a brief research project relating the most important information about, and the overall significance of, a site or monument in Rome (date of creation, creator, materials, notable associated events and personalities, etc.) within the context of Roman history, art, public and private architecture, and economic, social, and urban history.

For Assignment 1 the student will

1. compose a brief written summary (minimum 3 double-spaced typed pages of text) of the research to be submitted to the instructor via Sakai or e-mail, and
2. make a brief presentation (about 5 minutes) of the research on-site.

The individual topics for Assignment 1 will be assigned by the instructor, who will also provide guidance on research sources and expected contents.

The paper and presentation for Assignment 1 will be evaluated on

1. the quality and depth of the research and
2. the clarity of expression, both written and oral.

D. **Assignment 2** is a term paper involving visual observation, analysis, and research on a monument/site or theme/topic selected by the student with the approval of the instructor. The paper is due at the end of the course.

The assignments and the chapter homeworks must be submitted in standard document formats (.doc/x, .pdf, or .rtf ONLY).

Grading

The course grade scale is 94-100 = A, 90-93 = A-, 87-89 = B+, 84-86 = B, 80-83 = B-, 77-79 = C+, 74-76 = C, 70-73 = C-, 67-69 = D+, 60-66 = D, 59 and below = F.

Academic Honesty

Plagiarism and other forms of academic dishonesty are unacceptable at the JFRC and will be dealt with in accordance with Loyola University Chicago's guidelines. Please familiarize yourself with Loyola's standards [here](#):

http://www.luc.edu/academics/catalog/undergrad/reg_academicintegrity.shtml.

Students are not allowed to use AI (artificial intelligence) or other such assisted technology for any assignment or deliverable that will be graded as part of the course unless they are specifically authorized to do so by the instructor.

Students are responsible for complying with the LUC Student Handbook.

Late or Missed Assignments

Late or missed assignments will not be accepted for grading without the instructor's authorization.

Accessibility Accommodations

Students registered with the Student Accessibility Center requiring academic accommodations should contact the Office of the Dean at the John Felice Rome Center in the first week of classes.

Class Policies

- All work in class will be based on lectures, readings, assignments, and discussions. As art history is by nature largely subjective and often touches sensitive subjects (race, gender, politics, religion, class, sexuality), there is a lot of room for debate, disagreement, and definition. Be curious and forthright, and always respectful.
- During class smartphones and other personal communication devices should be switched off or set to silent mode.
- Lectures may be recorded for study purposes, but only with the instructor's prior and express permission.
- Students are expected to do all of their assigned work independently.

Disruptive Behavior

The class is a particular environment in which students and faculty come together to promote learning and growth. It is essential to this learning environment that respect for the rights of others seeking to learn, respect for the professionalism of the instructor, and the general goals of academic freedom are maintained. Differences of viewpoint or concerns should be expressed in terms which are supportive of the learning process, creating an environment in which students and faculty may learn to reason with clarity and compassion, to share of themselves without losing their identities, and to develop an understanding of the community in which they live. Student conduct which disrupts the learning process will count significantly against the participation grade component and may lead to disciplinary action and/or removal from class. Disruptive behavior includes, but is not limited to, habitually:

- cross-talking or talking out of turn
- whispering or talking to classmates
- berating or belittling classmates
- communicating with external parties in any format (phone, text message, VoIP, e-mail, etc.)
- regularly arriving to class late, prolonging breaks, or leaving class early
- being distracted by external stimuli or getting separated from the group

How to do well in this course

- Take good notes.
- Do the readings BEFORE the class in which they will be discussed.
- Jot down questions, observations, and comments about each week's readings and bring them to class, where we will review them. Chronic failure to ask questions about the readings will result in a significant reduction of the participation portion of the final grade.
- Take all assignments seriously. Do not do them at the last minute.
- See the instructor with any concerns about content, expectations, or performance.
- Be present on-time for every class.
- Participate. Ask questions and contribute to the discussion in an informed way.

The importance of the readings and class attendance cannot be over-emphasized. The readings provide both a broad context (Tuck) and specific information (Claridge), while the on-site lectures allow the student to have direct contact with the monuments and objects discussed in the readings, transforming loosely organized abstraction into structured comprehension.

On-site classes

With the exception of the first class and the examination, the course will take place at designated locations in central Rome. Every on-site class is clearly indicated in the Weekly Schedule (see below) and accompanied by a specific meeting point. At the end of every class the instructor will review the nature of the next meeting (classroom or on-site) and, if on-site, provide detailed information about the meeting point and how to reach it most efficiently.

- **Visits by family members, friends, and significant others are not allowed** during class time.
- On the day of an on-site visit, **be alert for e-mails** from the instructor containing information that may affect class, such as a change of meeting point or venue (in cases of extreme weather an on-site class may be held at the JFRC instead), or notice of a public transportation disruption. Such information will be communicated by 8:00 AM.
- **Prepare for your on-site visits.** On the day before, look at the description of the site(s) to be visited and check the weather forecast for the next day. If the majority of a class will take place outdoors, **dress appropriately for the weather:** bring a jacket, sweater/sweatshirt, rain jacket, windbreaker, sunglasses, hat, and umbrella as necessary. Museums can be cooler than outdoors, so bring an extra layer for warmth. **Wear appropriate footwear:** the cobblestone streets are notoriously hard on feet; sturdy or comfortable shoes or sandals are best, while flip-flops will slip and catch in the crevices. **Bring a water bottle**, which can be refilled as necessary from public fountains, **and snacks** (or money to purchase snacks). There will be a 15-minute break, or a series of shorter breaks, during on-site classes for coffee, snacking, restroom use, etc. Some museums and sites do not allow backpacks and employ metal detectors; in these cases the instructor will remind students to pack appropriately the day before. **Review the route to reach the meeting point** and contact the instructor before 8:00 AM if you have any questions or concerns.
- If you use public transportation, **pay attention to the people around you at all times: keep your eyes and ears open for suspicious movements and noises, and beware of “casual” or “random” bodily contact – this is usually sign of a pickpocket or molester.** If you are a victim of either, call attention to the situation by shouting and pointing at anyone you can **securely** identify as the person who touched you. Usually other passengers will try to stop the suspect and call the police.
- **Arrive at the meeting point at least 10 minutes early.** Class time is precious, and there is a lot of ground to cover, so we will start work at 9:00 sharp in order to finish by 12:00 sharp. Arriving early allows you to look around, take pictures, get another coffee, use the restroom, etc. **If you arrive late and do not see the class, contact a classmate (NOT the instructor) and find out where the class is located.**
- Once on-site, **pay attention at all times.** On-site classes will attempt to cover a lot of ground in a relatively short amount of time, so we will often move fast from location to location. If you get distracted by a cute animal, a street performer, a shop window, a delicious smell, or a passing siren, you might miss a turn and get separated from the class. Downtown Rome is very noisy and chaotic; there will be numerous stimuli competing with the instructor’s voice for your attention and your hearing. If you can’t hear the instructor clearly, move closer. Ask for an extra minute to take pictures.

Public transit information can be found online at <http://www.atac.roma.it/> (also in English).

Subject to Change Statement

This syllabus and schedule are subject to change in the event of extenuating circumstances. It is the student's responsibility to check for announcements made during his/her absence.
