

KEY TO INFORMATION ON THE "MASTER COURSE LIST" FOR UNDERGRADUATE CORE COURSES

The listed academic term indicates the first term when the course began counting for the specified Core area(s).

>> If a student took a course before it was approved to count for Core, the credit cannot be applied retroactively because the course did not meet the academic criteria for Core prior to the date it was approved.

Courses in **white text** require a choice among more than one area of Knowledge and/or more than one area of Values.

>> The current policy is that a single Core course can satisfy one Knowledge area, one Values area, and Ethics.

Courses or end-dates in *gray italics (disc)* were approved to satisfy the specified Core area(s) in the past, but were discontinued, the course number changed, or the course is no longer approved to satisfy the indicated requirement.

>> These are included on the list as historical data. A student who took the course when approved should still retain credit for the approved Core

>> Where applicable, the effective end date is also listed for these courses.

Courses in **bold text** are variable topics courses that share a single course number. ONLY the specified topic is approved to satisfy the indicated Core area(s).

Rows with multiple course numbers are equivalent (cross-listed) interdisciplinary courses, as indicated by the common course title.

All courses are worth **3 semester units** unless otherwise specified **(1), (2), (4), (5), (6), or variable**.

NOTE: A minimum of 3 semester units is required to satisfy a Core requirement.

All Approved Core Courses Offered Fall 2005 through Spring 2012
