

Lesson Plan Bookmark

Before you plan, ask yourself...

- What is the essential learning for today's lesson?
- Ultimately, what do I want my students to KNOW, UNDERSTAND, and DO?

Each lesson should include the following:

Objective

SWBAT (Students will be able to...)

Evidence

How will students demonstrate learning?

Activities/Strategies

What will you **do** and what will students **do** to be ready for the assessment?

Materials

Needed for activity, practice or homework, re-teaching, etc.

Practice/homework

MUST be meaningful and a practice of today – no new concepts should go home.

Re-teaching

Which students are having difficulty, and how can I help them know, understand, and do?
