

Organic Chemistry 223 - Fall 2008

Dr. Daniel Becker, Ph.D.
Flanner Hall 215, Loyola University
dbecke3@luc.edu

Lecture Tu/Th 2:30 – 3:45 p.m. FH-133 (Sect 004)

Discussion Wed 12:35 – 1:25 p.m. Damen 730 (Sect 005)
Wed 1:40 – 2:30 p.m. Damen 730 (Sect 006)

Office Hours Tu/Th 3:45 – 5:00 p.m.; Wed 2:30 – 3:30 p.m.

Required Text: L.G. Wade, Jr., "Organic Chemistry" 6th Ed. ISBN 0-13-147871-0
Required Key: J.W. Simek, "Solutions Manual Organic Chem.", 6th Ed. ISBN 0-13-147882-6

Recommended: Your favorite molecular modeling kit. Here are some options. (\$ not guaranteed)

- Darling \$18.65 in LUC Bookstore with cardboard box; \$15 in stockroom
- Darling \$36.00 in LUC Bookstore with green plastic box
- Prentice Hall Molecular Model Set for Organic \$35.33 (colorful & pretty)
- Prentice-Hall Framework Molecular Models (Brumlik) \$45.80 (tubes to cut)
- HGS Fundamental Organic Set \$17.00

Extra help: *Pushing Electrons* by Daniel Weeks
The Organic Chemistry Answer by Matthew J. Hamiel

Do you have an interest in human health, prescription medicines and drugs? Organic chemistry is utilized by medicinal organic chemists for the design and construction of new molecules that are prescribed by doctors and dispensed by pharmacists to treat diseases. Organic chemistry is also the essential science for inventing new soaps and detergents, dyes, plastics, and resins, and it is also used in creating certain types of new photoreceptors for renewable solar energy.

1. Exam Dates (subject to change):

Thursday, September 18, 2008:	Mid-term Exam 1
Thursday, October 23, 2008:	Mid-term Exam 2
Tuesday, November 18, 2008:	Mid-term Exam 3
Thursday, December 15, 2008:	Final Exam, 9:00-11:00 a.m.

2. Exams and Grading:

There are three 1-hour mid-term exams and one 2-hour final exam. The lowest of the three mid-term exams will be dropped. If you miss an hourly exam, that is the exam that will be dropped. No make-up mid-term exams will be given under any circumstances. The final exam is cumulative and cannot be dropped.

Mid-term exam	100 points	(Best two out of three mid-term exams)
Mid-term exam	100 points	
Final Exam	150 points	
TOTAL	350 points	

I generally grade on a curve based on the average and the standard deviation. I will give statistics including the mean, the median, and the standard deviation for each exam. I do not predict cutoffs, but can tell you what the cutoff was for a previous test or class.

You must bring a form of photo identification, such as your Loyola Student ID or your driver's license, with you to the exam. During exams, you will be required to leave your books, backpacks, notebooks, etc. at the front of the room. All exams are closed book and closed notes unless otherwise noted. When you are finished with your exam, please bring your completed exam to the front, and leave the room quietly without disturbing the other students.

Exams will be graded and returned to you as quickly as possible, usually by the following class period. All grading questions, points of clarification, and grading errors must be brought to the instructor's attentions during office hours no later than one week after return of the exam.

3. *Homework:* Organic chemistry is a new language that is spoken in words and in structures. The best way to learn a language is to work some problems every day. Homework problems will be assigned for each chapter, but will not be collected. You must work problems in a timely manner. Past experience has shown that exam success is a direct result of working the problems in the book.

4. *Discussion:* The discussion section will be devoted to answering questions regarding homework problems. *Attendance and participation are expected.*

5. *Blackboard Materials:* Handouts given in class will be mirrored on Blackboard.

6. *Academic Honesty:* For this course, all exams are closed book and closed note. Academic dishonesty includes using notes or books during exams, looking at another student's test during the exam period, or talking during an exam. The consequence of academic dishonesty is failure of the course, and the incident will be reported to the Chemistry Department Chair and the Office of the Dean. Additional sanctions including expulsion from the university may be imposed. The Undergraduate Handbook contains a complete description of the University policy regarding academic dishonesty.

7. *Strategies and Suggestions:*

- The best method of learning organic chemistry is to work the assigned problems and write out the answers. *Then* check your answers versus the Answer Key.
- Study at least 10 hours per week and maintain a steady pace of studying. Organic chemistry continually builds, like a language, so studying some every day is most effective.
- Homework will not be collected, but it is essential that you work the assigned problems in a timely fashion.
- Skim the current chapter before the corresponding lecture, so that you will be aware of the topics to be covered.

Organic Chemistry 223 Tentative Lecture Schedule (subject to change)

8-26	1	Lewis structures & bonding
8-28	2	Structure & properties of organic molecules
9-2	2	"
9-4	3	Structure & stereochemistry of alkanes
9-9	3	
9-11	4	Reactions & Mechanism: Free radical halogenation
9-16	4	"
9-18	--	EXAM I (chapters 1-4)
9-23	5	Stereochemistry
9-25	5	"
9-30	5/6	Alkyl Halides: S _N 1, S _N 2, E1, E2
10-2	6	"
10-7	--	<i>Mid-Semester Break, No Class</i>
10-9	6	"
10-14	7	Alkenes: structure and synthesis
10-16	8	Alkenes: reactions
10-21	8	"
10-23	--	EXAM II (chapters 5-8)
10-28	9	Alkynes
10-30	9	"
11-4	10	Alcohols: structure and synthesis
11-6	10	"
11-11	11	Alcohols: reactions
11-13	11	"
11-18	--	EXAM III (chapters 9-11)
11-20	12	IR and MS
11-25	12	"
11-27	--	<i>Thanksgiving Holiday</i>
12-2	13	NMR
12-4	13	"
12-15	--	Cumulative Final Exam, FH-133 Thursday, Dec. 11, 9:00-11:00 a.m.

Ch Assigned Problems

1. 1-11, 14-20, 23, 25, 27, 29, 31, 34-37, 40-46
2. 1-11, 13-29, 32-42, 44
3. 1-7, 9-12, 14-18, 20-21, 24-25, 27-35, 37-40, 44, 46
4. 1-15, 18-19, 21-26, 28-44, 46-50
5. 1-3, 5-10, 14-21, 23, 25-31
6. 1-7, 9-12, 14-27, 29-30, 32-53, 55-56, 66
7. 1-2, 4-6, 8-17, 20-25, 27-47
8. 1-13, 15, 17-30, 32-38, 44-47, 48a-e, 49-51, 61
9. 1-2, 4-9, 12-34
10. 1-4, 6-10, 12-20, 22-27, 29-33, 35-42, 49
11. 1-3, 5-6, 9-15, 19, 21-22, 24-26, 30-34, 36-37, 39-46, 48, 53
12. 2-9, 11-12, 14-20, 23-25
13. 2-11, 13-16, 18-20, 21b, 22-26, 29-44, 47-49
14. TBD....

Never miss an opportunity to work through
some organic chemistry problems
