

Coal Country Film Screening

October 26, 6:00 pm

Information Commons, 4th Floor

Lake Shore Campus

Movie Snacks Provided

Learn about the devastating effects of mountaintop removal coal mining in the Appalachian region

Movie will follow with a discussion led by

Mark Kresowik, Sierra Club's *Beyond Coal Campaign*

What we do?

- Mountaintop removal for cheap coal energy
- Since the 1990s, over 500 mountaintops have been leveled
- 2,000 miles of valley streams destroyed

What we lose?

- Human lives
- Wildlife habitat
- National environmental treasures

Event Sponsored by Loyola University Chicago's Center for Urban Environmental Research & Policy, University Libraries, and Shareholder Advocacy Committee
