- _____
- _____
- _____
- _____

Notes:

- A maximum of three upper level undergraduate accounting courses may be taken as part of the program. These courses are listed above. One of these may be applied to the six accounting courses requirements. At least five graduate level courses must be taken as part of the accounting requirement.
- At least nine hours of the program must be in course outside of accounting. Students may, if they wish, use elective courses to build a second concentration in areas such as MIS, Finance, International Business, Ethics, or a field of their choice.
- Students wishing to sit for the CPA or CMA Examination should consult with the MSA Program Director for educational requirements.
- The Independent Study Course, if chosen, should normally be done towards the end of the student's program.
