The Admissions Committee has reviewed your application and previous academic work. Based on your transcripts, we have determined the number of courses you will need to complete the MSIMC degree. Course descriptions can be found at [www.gsb.luc.edu](http://www.gsb.luc.edu).

1. If a course has been Waived, this will reduce the number of courses needed for the degree.
2. If a course has been Advanced, you must complete an elective course from that same Area of Study. For example; a student Advanced out of ACCT 400 must take an elective course from the Accounting Area of Study.
3. Students must complete all core courses for the MSIMC program. Although students may elect to take courses in any order, it is preferred that students complete Phase One Core before Phase Two Core. Elective courses may be taken anytime after the corresponding core course has been completed. It is suggested that \*MARK 664, the capstone course, be completed later in the MSIMC program if possible.

Number of courses waived: \_\_\_\_

Total number of courses needed to complete the MSIMC: \_\_\_\_
