http://www.pli.edu/product/webcast_detail.asp?id=57898

Monday, June 8th, 1pm - 2:30 pm (Eastern)

You're signed up for the Patent Law Interview Program (PLIP), and want to make the most out of this terrific opportunity. Mary Beth Wynn of the Career Services Office of Loyola University Chicago School of Law, Katharine Patterson of Patterson Davis Consulting, and Mark Dighton of Practising Law Institute (PLI) are coming to the rescue...with a free Web Briefing to make sure that you are prepared on all fronts to get the most out of this experience.

THE PANEL:

Chief administrator of the PLIP for three years, **Mary Beth Wynn** knows everything there is to know about the logistics of the program.

Katharine Patterson works exclusively with Intellectual Property and Patent firms and practices on issues of attorney recruitment, hiring policy and retention. As PLI's invited guest, she has attended PLIP for the past four years to brief students on what's going on in the current job market, review individual resumes, and offer one-on-one counseling. This Web Briefing is in part inspired by the fact that so many participants at past PLIPs said to us "I wish I'd known this BEFORE I got to PLIP."

Mark Dighton, PLI's Director of Law School Relations and Administrative Director of their Patent Bar Review, has participated in PLIP for almost 10 years. He's our resident expert on the Patent Bar Exam, and has picked up a lot about the patent law job market along the way.

Hear our expert panel discuss:

- How PLIP works before, during and after the program
- How to write a resume targeted to employers looking for patent attorneys (at PLIP and elsewhere!)
- What research you should do on the firms and interviewers before coming to PLIP
- Interview issues and techniques for this audience
- How to make the most out of other networking opportunities at PLIP
- How to follow up on your interviews, and what about the firms I didn't get interviews with?
- The relationship of PLIP and on-campus interview programs
- Where and how to find jobs outside of PLIP and OCI
