Understanding Servant Leadership

November 11, 2009

7:00pm – 8:30pm

Dumbach Hall, Room 117

Does leadership mean the one who leads the group? Speaks for the group? Tells the group what to do next? Is a leader the one who is charismatic, powerful, and has all the control? The servant leadership theory takes our traditional understanding of leadership and turns it upside down. In this session, we will explore the servant leadership theory, in which leadership means serving those you lead. Participants will discuss servant leadership theory as the intersection of service and leadership, and discuss how to put it into action. Learn practical skills to implement Servant Leadership in your own leadership style. Connect to resources and programs at Loyola that allow you to develop your leadership in the community and strengthen your servant leadership attributes.
