   Monday, December 20
   1:00 p.m.–3:00 p.m.
   Flanner Hall Auditorium
   (no reschedules except by permission of the Dean’s Office)

5. **Textbook and Materials**
   - The study guide is recommended.
   - Molecular Model Kits (Prentice Hall, or as found in the Loyola Bookstore)
6. **Grading**
   
   a) Best 2 scores out of 3 midterm exams (1/3 + 1/3)
   
   b) Final Exam (1/3)

   This course is graded on a curve set such that the average is at least a 2.7 GPA. Statistics will be presented after each exam, and so it is possible to assess *approximately* your grade. *It is impossible to know your actual score until the end of the semester.*

   There are no make-up exams. If you must miss an exam, it will be entered as a 0. This will probably be the exam that you drop.

7. **Academic Dishonesty**

   The penalty for academic dishonesty is a grade of “F” for the entire course.

8. **Course Prerequisites**

   Lack of appropriate course prerequisites constitutes grounds for being administratively withdrawn from the course at any time.

9. **Fine Print**

   This course is under the auspices of the College of Arts and Sciences and the Department of Chemistry. Information that is not provided on this syllabus (e.g., policies, registration, drop dates, etc.) can be found in other materials such as the Course Catalog.
