CHEMISTRY 152 ELEMENTRY PHYSIOLOGICAL CHEMISTRY SYLLABUS
Section 001-002 Spring Semester 2013

MEETINGS: CS 207, MWF, 9:20 - 10:10 am (001)
          10:25 - 11:15 am (002)

TEXT: Fundamentals of General, Organic and Biological Chemistry, 7th Ed, By:
       McMurry & Costellion. With Access Code to MasteringChemistry.com

OTHER MATERIAL: You should obtain a Periodic Table, a calculator, laboratory safety
       glasses

INSTRUCTOR: Mir Shamsuddin, D.V.M., Ph.D.
            Office: FH 403, 773-508-3134
            Ho.rs: MW 11:30- 12:30 pm
            T    1:00- 2:00 pm

EXAMINATIONS:  EXAM 1: Feb 8, 13          QUIZ 1: Feb 1, 13
                EXAM 2: March 11, 13         QUIZ 2: March 1, 13
                EXAM 3: April 5, 13          QUIZ 3: March 27, 13

FINAL EXAM: TBA (also check university announcements)

EXAMINATION POLICY:  3 Exams  300 pts
                      3 Quizzes  45 pts
                      1 Final Exam 100 pts
                      Lab and Lab Quiz 110 pts
                      Discussion 10 pts
                      Homework (Mastering) 15 pts

All points will be combined and reduced to a percentage before assigning the letter grade.
No letter grade for individual exams.

Grading Scale:

     A     95-100%  C+     71-75%  F≤50%
     A-    91-94%  C     66-70%
     B+    86-90%  C-     61-65%
     B     81-85%  D+     56-60%
     B-    76-80%  D     51-55%
MAKE-UP EXAMS AND QUIZZES WILL NOT BE GIVEN: If a properly documented emergency (minimally written, signed, and documented by doctors, judges or similar officials, along with notification prior to the examination as well as appropriate reason and valid time period is required) prevents one from taking an exam, the instructor may allow an averaging of the other two examinations to calculate a grade for an excused exam. Absence from the final examination will result in a zero for that exam. Note—no makeup work, extra credit, or the like will be awarded; such an opportunity would not be fair to the others in the class and will not be entertained.

LABORATORY: There is a lab portion of this course. It will be described in a separate handout. Each student is expected to be enrolled in a lab session.

DISCUSSION SCHEDULE:          Mon (004)    12:35 – 1:20 pm    FH105
                                 Wed (006)    12:35 – 1:20 pm    FH105

DISCUSSION SECTIONS: The discussion sections have been scheduled in order to help you learn chemistry by solving problems. All the different types of problems and chemical concepts that you will be expected to master will be reviewed at these sessions. In order to encourage your attendance at these sessions, a number of homework problems will be assigned for each session. You should solve or attempt to solve these assigned problems before attending your discussion section at which they will be reviewed. Attendance in discussion sessions is highly encouraged.

MASTERING CHEMISTRY: Assignments will be graded based on in time completion and correctness.

INSTRUCTOR PRIVILEGES: The instructor reserves the right to correct any error in the syllabus or modify this syllabus as deemed necessary.
Reminder of Important Policies for the Course Chem 152 Spring 13

**Academic Dishonesty**

The pressure of getting excellent grades can lead to frustration. However do not let such pressure interfere with your academic honor. It will be an unpleasant situation and there will be consequences if you are caught cheating, a failing grade for the course will be given. No note cards or other material can be used during exam.

Nursing students’ integrity and trust is one of the most important aspects of professionalism. Any student found cheating on any examination will receive an automatic “zero” for that exam and his/her name will be brought to the attention of the Chairman of the Chemistry Department as well as the Dean of the Nursing School. It will then be decided whether further disciplinary action is necessary (in such situations, a permanent note of academic dishonesty will be attached to one’s official records and transcripts).

**Academic Integrity**

All students in this course are expected to have read and to abide by the demanding standard of personal honesty, drafted by the College of Arts & Sciences, that can be viewed at:  
http://www.luc.edu/cas/pdfs/CAS_Academic_Integrity_Statement_December_07.pdf

Anything you submit that is incorporated as part of your grade in this course (e.g., quiz, examination, homework, lab report) must represent your own work. Any students caught cheating will, at the very minimum, receive a grade of “zero” for the item that was submitted and this grade cannot be dropped. If the cheating occurred during a course exam, the incident will be reported to the Chemistry Department Chair and the Office of the CAS Dean. Depending on the seriousness of the incident, additional sanctions may be imposed.

**Ethics Policy**

Do not talk during class. Try not to disturb class during lectures or exam period. Be Respectful to the instructor and to your peers. If you have a problem during course, please come to me before or after the class and I will try to find the best solution.

**Other Notes**

1. No food or drinks are allowed in the classroom or laboratory.
2. Use of cell phones in the classroom will not be permitted; you may not bring one into the classroom unless ringer is turned off.
3. Read textbook prior to attending class.

Lab Instructor: Mir Shamsuddin
Teacher Asst:

**Grading:** There will be a Safety Quiz worth 5 points on your first day of lab followed by equipment check-in. There will be a total of nine experiments. The procedure for each experiment and the outline for the required Pre-lab will be passed out during the previous lab period. Each lab meeting will start with submission by students of the completed Pre-lab on the experiment to be performed that day. The Pre-lab will be worth 3 points. The lab report is due immediately after completion of the experiment, and will be worth 7 points for your techniques and result. Lab final quiz is worth 10 points. The entire 152 Lab will be worth a total of 115 points.

**Week Of:**
