Counselors are instrumental in making sure these rights and earned opportunities are respected. You are not only a counselor to your undocumented students, you are also an ally. A first step to being an ally is by dropping the “I” word. Never refer to your students as “illegal.” No human being is “illegal.” It is a dehumanizing and humiliating term that can erode a student’s trust in you. Use the word “undocumented” and encourage your students and colleagues to use this term as well.

When a student comes out to you about their status, they are putting a great amount of trust in you. For these students, confidentiality is key. Even though you may not legally ask students about their status, reassure students your office is a safe space to talk and anything they share with you, including their status, will remain private information. Be open and visible about providing support, information, and assistance to undocumented students and families.

When students reveal their status, listen to them, but never offer legal advice. It can put your career and your student at risk. Move forward and make a plan with them on what you both can do to keep the student on track to college. The purpose of this guide is to help you in creating that plan.

Thank you for working on being more knowledgeable and better trained to help all students. Please note that even though we have tried to the best of our abilities to gather useful information, we may not have answered all the questions you have. Let us know if we are missing something or if you want to share an experience with us. Good luck!
HB 60: In-state Tuition

HB 60, passed in 2003 was a significant win for young immigrants in Illinois. It qualifies eligible undocumented students to pay in-state tuition when attending public universities in Illinois.

Students must meet the following requirements:

1. The individual resided with his or her parent or guardian while attending a public or private high school in Illinois.

2. The individual graduated from a public or private high school or received the equivalent of a high school diploma in Illinois (the GED).

3. The individual attended school in Illinois for at least 3 years as of the date the individual graduated from high school or received the equivalent of a high school diploma.

4. In the case of an individual who is not a citizen or a permanent resident of the United States, the individual provides the university with an affidavit (see page 9) stating that the individual will file an application to become a permanent resident of the United States at the earliest opportunity the individual is eligible to do so.

IL DREAM Act

This legislation makes Illinois the first state in the country to create a private scholarship fund for undocumented youth. It also eases the path to higher education for undocumented youth, 65% of whom come from households that earn 200% under the poverty line. While not comparable to FAFSA, the passage of the bill is an incredible victory that lays a foundation for other states to follow.

What Will the IL DREAM Act Do?

1. Allows anyone with a taxpayer number, including undocumented students, to participate in the State Treasurer’s College Savings Pool and the Illinois Prepaid Tuition Plan. These programs allow families of DREAM youths to plan ahead and invest and save for their children’s college education.

2. High school college counselors are required to be better trained and prepared to know what college options are available for undocumented students and children of immigrants. This will ensure that undocumented students will receive correct information about opportunities available to them after high school. These trainings will be incorporated into existing trainings for counselors.

3. Requires the IL Student Assistance Commission to establish an Illinois DREAM Fund Commission that will oversee the Act’s provisions. The commission will consist of nine unpaid members reflecting geographic and ethnic diversity appointed by Governor Quinn. The DREAM Commission will provide scholarships funded entirely by private donors and contributions.

The IL DREAM Fund Commission is responsible for overseeing fundraising for the fund, establishing, publicizing, and administering scholarships for qualified students, and researching educational opportunities for immigrant youth.

Who Qualifies?

In order to qualify for the benefits of the IL DREAM Act, the student must:

1. Have resided with parents or guardians while attending high school in Illinois;

2. Have attended a high school in Illinois for at least 3 years from the time of graduation or receiving the equivalent of a high school diploma (such as GED);

3. Have at least one parent who immigrated to the United States.

1. Source: Full text for SB 2185. IL DREAM Fund Commission can be found at http://www.ilga.gov.
**IL College Saving Program/Bright Start/Bright Directions**

The Act would also make certain state college savings programs available to immigrant youths, including the Bright Start and Bright Directions programs administered by the State Treasurer and the College Illinois pre-paid tuition program.

The IL College Savings Program allows a student’s family to set up an account with Illinois and to set aside money every month to pay into the account. The family will negotiate a set tuition with a designated Illinois school and the savings from the account will go into the student’s tuition. Tuition negotiated with school. A student’s family will be paying today’s tuition rates for their child’s future education.

The Bright Star/Bright Directions program is similar: the family sets up an account, pays into it, and when the student enters college, they can draw out of it to pay for tuition.

Anyone with a valid Individual Taxpayer Identification Number (ITIN) issued by the Internal Revenue Service (IRS) could open an account or draw upon the account to pay for college. The ITIN is a nine digit number beginning with the number “9” and is formatted like the SSN. It is used for tax purposes only for certain residents, nonresidents, their spouses, and their dependents. It cannot be used for employment. **An ITIN cannot be used for FAFSA.**

An ITIN can be obtained by filling out an IRS form, the W-7. This form is downloadable off the internet at www.irs.gov/pub/irs-pdf/fw7.pdf. You can also find a guide to the ITIN application on the IRS website at www.irs.gov.

Neither of these college savings programs advertises an e-mail address, but students can go online and fill out their information to contact them electronically.

Implementation Steps

The Dream Commission that would set up the scholarships has not been appointed as of this publishing. This means scholarships are not yet available. There are several steps left for the IL DREAM Act to be implemented. Below is an outline of what needs to be done in order for the law to become reality.

1. Governor Quinn must appoint a volunteer-based nine member Dream Commission who will be responsible for the implementation of the IL DREAM Act;

2. IL Senate must confirm Dream Commission.

Note: Senate confirmation for Commissioners who are serving without compensations, such as Dream Commissioners, can be done in a Senate hearing during the Fall Legislative Session. The Legislature will be in session October 25, 26 and 27 and November 6, 7 and 8 and then not again until February 2012;

3. The Dream Commission is established by the Illinois Student Assistance Commission and hires staff to assist the Commission in carrying out its mission from privately raised funds. The Illinois Dream Fund is established by the Illinois Student Assistance Commission. At this time the Dream Fund can receive funds raised and held by Dream Team community activists;

4. The Dream Commission establishes the “Dream Fund NFP”, a not for profit corporation that can receive tax deductible contributions from larger individual or corporate donors.

5. The Dream Commission issues rules for the award of scholarships to Dream Act eligible students

6. The Dream Commission establishes training programs for high school counselors, admissions officers and financial aid officers to instruct students, parents and community members on the opportunities for college bound students. This will include information on in-state tuition and scholarship programs, including the Dream Fund.

Implementing the IL DREAM Act is a lengthy process. Meanwhile, there are many community organizations hosting their own fundraisers to raise money for the scholarship fund. Community leaders are also looking for private donors to donate private funds to the commission.

We suggest you actively search for other privately funded scholarships open to all students regardless of immigration status. Also, don’t be afraid to get creative! Host your own fundraiser and/or create your own scholarship in your community or school for undocumented students! For more information on scholarships and alternatives, see Resources for College on page 12.
1. **Can a student move to IL and benefit from the IL DREAM Act?**

No, in order to qualify for the Illinois Dream Act a person must have attended a high school for at least 3 years in Illinois and have received the equivalent of a high school diploma or GED.

2. **Does the IL DREAM Act provide driver’s certificate?**

No, the IL Dream Act currently does not provide a driver’s certificate.

3. **Does the IL DREAM Act provide a path to citizenship?**

No. It is only within federal government’s jurisdiction to pass citizenship laws. The federal DREAM Act which would have provided undocumented youth with a pathway if they complete two years of college or military service, was brought up for a vote in December 2010. Undocumented youth and allies from all over the country pushed for the bill. Though it passed the House, it did not pass the Senate. Senator Durbin (D-IL) reintroduced the bill in the Senate in May 2011. It is unknown when it will be up for a vote.

4. **When can students apply for scholarships?**

Scholarships through the Dream Fund are not available as of this publishing. As we mentioned in the previous chapter, the Dream Fund Commission, responsible for fundraising and administering scholarships, has not been established yet.

For the most up to date information on the IL DREAM Act, visit www.icirr.org or www.iyjl.org.

5. **Does making an Individual Taxpayer Identification Number (ITIN) number make a person less safe?**

An ITIN is given to those who do not qualify for a social security number, this includes undocumented immigrants and foreign investors. According to federal law, the IRS cannot share the information they gather with the Department of Homeland Security. Be advised that scholarships awarded by the IL DREAM fund do not require an ITIN.
6. Does a student need a social security number/ITIN number to apply for the Dream Scholarship fund?

No, the application for the Dream Scholarship fund will not require a social security number or ITIN. But in order to enroll in Illinois’ College Savings Pool, the Illinois Prepaid Tuition Plan, Bright Start and Bright Directions you and your parents require an ITIN or social security number.

7. Does a student have to come out as undocumented to be eligible for resources available for undocumented youth?

Students do not have to come out as undocumented in order to be eligible for resources aimed towards undocumented youth but undocumented youth who confide in teachers and counselors that they trust have access to more resources than those that stay quiet. Counselors should be knowledgeable and constantly updated on what resources are available to undocumented students.

8. What if a financial aid/admissions advisor requires the student to fill out the FAFSA?

If a college financial aid/admissions advisor suggests the student fill out the FAFSA and you do not have a social security number, you can fill it out but DO NOT submit it. Undocumented students do not qualify for FAFSA and submitting FAFSA forms with false information is against the law.

9. A public college/university has informed me that they do not accept undocumented students. Is this correct?

Undocumented students are not banned from attending public universities in the state of Illinois and they may qualify for in-state tuition and private scholarships. If a public college/university gives an undocumented student a difficulty about their status, we encourage you to contact any organization listed in Appendix B for resources.

If you have more questions that are not answered by this guide, email info@iyjl.org, or ssmith@icirr.org.

Understanding Undocumented Students

Undocumented students are those who came to the United States without a visa or have overstayed their visa and many have no legal way to become U.S. citizens. They:

- May not know about their status until they begin the college application process.
- Do not qualify for state or federal grants and loans, even if their parents pay taxes.
- Cannot legally work in order to pay for their education.
- Are not eligible for an Illinois driver’s license or Social Security number (SSN).
- Cannot get paid internships or fellowships.
- Are often not eligible for careers that require licensing, background checks, or social security numbers.
- Have probably grown up here in the United States.
- May think of themselves as Americans and of the United States as their country and their only home.
- May not even have known until recently that they are not U.S. citizens.

Working With Undocumented Students

- **Be supportive and encouraging.** Let them know that being undocumented does come with obstacles but they are not impossible to overcome. Also remind them that many undocumented students have been able to finish college.
- **Know what you are talking about.** Be educated on resources for students and families. Research before you answer questions. Undocumented students are often desperate for information. Be aware of local resources. Giving out inaccurate or misleading information to an undocumented student won’t just slow down their college application process, it may keep them from achieving their dreams.
- **Be Inclusive.** Include undocumented students in all presentations rather than creating a separate presentation specifically for this group so as to avoid isolating them. Make it clear and publicly known that you are trained to deal with all different types of students, including undocumented students.
- **Talk to undocumented students** who have been through the college application and admission process about how best to help people in their situation.
- **Don’t transfer your fears** about their immigration status to undocumented students. Don’t tell students to stop talking about their status, or to stop looking for help. It is your responsibility to create a safe environment for all students, including the undocumented, and let them choose what to reveal about their status.
- **Be an advocate for your undocumented students.** Connect them to support networks, websites, and other undocumented youth. **Start a club within your school/institution to support them. Work with your school to create in-house scholarships.**

All the above points can be boiled down to four important steps: be aware of undocumented students, be knowledgeable about legal policies, share your skills, and take action!
**Tips to Helping Undocumented Students**

- Make information and resources about undocumented students easily available to all students. Don’t ask students to self-identify. Many students may be scared to reveal their immigration status. Some students might not even know about their status.
- Don’t make assumptions about which students may or may not be undocumented. Undocumented students aren’t all Latino, Spanish-speaking, or enrolled in ESL classes.
- Be knowledgeable about specific government and college admission policies that affect undocumented students in Illinois and nationally.
- Support the federal DREAM Act and other state-based legislation to support undocumented students.
- Identify private scholarships that don’t require citizenship/residency.
- Encourage private scholarships to allow undocumented students to apply.
- Identify private sponsors who can provide financial support to undocumented students.
- Help undocumented students create lasting support networks that can offer ongoing mentoring and advice, even after the college admission process.
- Identify older undocumented students to serve as role models.
- Refer students to qualified legal counsel to investigate possible immigration remedies.

**Involve the Family**

It’s important to keep parents as involved in the process as possible. Gaining family support is key, especially when parents do not fully understand the college application process or may be fearful about the laws. Meetings should provide a safe and open space in which parents and students feel free to discuss all questions and concerns.

Make sure the parents and the student know that the counselor confidentiality code protects the privacy of their conversations. Make sure they are informed about immigrant related policies and laws including HB60, IL DREAM Act, and the Federal Education and Privacy Act (FERPA), which protects a student’s privacy in general and during the college application process.

Some students and their families may be interested in additional community support services. Let your students know they can connect with local organizations in Illinois and connect with other undocumented students, immigrants, and allies for additional resources. See Appendix B at the end of this guide to get started.

<td>Getting a college degree isn’t going to change your immigration status, but it will open up many opportunities for you once you’re able to legalize. The DREAM Act is a proposed federal bill that will give many undocumented students a path towards citizenship if they graduate from high school and go on to college. Because of strong bipartisan support in Congress and support from President Obama, the DREAM Act is very likely to pass in the near future.</td>

**FAFSA & Applications**

Undocumented students do not qualify for federally funded scholarships or grants, such as the Free Application for Federal Student Aid (FAFSA). DO NOT, under any circumstance tell undocumented students to submit a FAFSA to the government.

When filling out college applications, providing a social security number is optional and never required. It is against the law to use a social security number that is does not belong to the student or a false one. Work with students to contact the university to find out whether they should leave this question blank, fill in zeros (ex. 000-00-0000), or fill in the space with an identification number provided by the university.

What determines student eligibility for state and federal financial aid programs is the status of a student NOT that of a parent. So, if a student applying for financial aid is a U.S. citizen or permanent legal resident, but one or more parents are undocumented, the student is eligible for federal student aid.

Undocumented parents should use 000-00-0000 as their social security number on the FAFSA. The FAFSA will also be rejected when the parents submit an ITIN.

Undocumented parents cannot request a PIN number to sign the FAFSA electronically. They must sign the application and send it by mail.

Note that some private scholarships may ask students to submit a FAFSA to prove financial need by printing it out and mailing it to them and not sending a copy to the government. If they ask the student to do this, it may be because it is their only way to measure financial aid, so make sure that the undocumented student sends the form to them and they do not send one to the government.

Be sure to consult with someone from the college the student is applying to before submitting any documentation.

**Scholarships**

The IL Dream Act Fund has not been created yet, but many schools offer private scholarships to students regardless of their immigration status. Many private schools are able to offer scholarships that pay part of a student’s tuition if they are the most qualified candidate regardless of status. This is why doing well in high school and/or being involved in the community is so important- it gives you a competitive advantage to winning scholarships!

Ask colleges that you are applying to about the private scholarships that they offer and what the requirements are and if they require students to be legal permanent residents or U.S. citizens.

Make an appointment with a college financial advisor or an admission officer at the colleges you are applying to and inquire about what resources are available for undocumented students.

Many communities have also created their own scholarships to help with the cost of tuition or books for college. Look into different community centers, churches or local schools to find out if they have scholarships open to all students. No matter what the amount is, scholarships add up!

**The Affidavit**

When a student has been accepted to a public college/university in Illinois, is ready to enroll, and is eligible for in-state tuition, they will probably have to sign an affidavit form to qualify.

Forms such as these are part of a student’s records and as such are protected under the Federal Education and Privacy Act (FERPA). The student does not have to be concerned about privacy when revealing their citizenship status on this form.

This form is usually just trying to confirm if you lived with your parents while attending high school in Illinois, if you were in high school in Illinois for three years before graduating, and if you graduated or received the equivalent of a high school diploma (such as the GED).

They will often ask you to sign an affidavit stating your intention to apply to become a permanent resident in the United States as soon as you are able to do so. Affidavit forms for in-state tuition eligibility may vary by school, but most forms will correspond to the requirements for in-state tuition outlined in HB 60. The affidavit usually looks like this:

**AFFIDAVIT**

I, ________________________________, hereby swear that I will file an application to become a permanent resident of the United States at my earliest opportunity to do so.

Student Signature: ______________________

Date Signed: ______________

Questions to Ask Financial Aid Advisors/Admission Officers

Each college works with undocumented students in different ways. Share the sample question list below with your students, call on their behalf, or suggest that they have another advocate call on their behalf:

- Is there someone who works with undocumented students? If so, can be transferred to them?
- How would an undocumented student answer the citizenship question on the application? Which box should I check on your application? Do I leave the social security number space blank or put zeros? Will your system let me fill out an application online if I don’t put a SSN or should I fill out a paper application?
- How do I start the process to be considered for financial aid? What forms do I have to fill out/submit?
- Do you offer fee or tuition waivers and if so, how can I apply for one?
- How can I qualify for in-state tuition?
- What kind of financial aid is available to a student without a social security number?
- Do you offer institutional scholarships for undocumented students? What about private scholarships?
- Are these scholarships merit based? Beyond merit, what other aid is available?
- What are the qualifications to apply for these scholarships?
- If I am awarded this scholarship, what do I need to do to keep it? Can I lose the scholarship if I get poor grades?
- Are these scholarships good for the entire time the student is at your school? What if it takes 5 years to graduate?
- Do you have any scholarships for transfer students?
• Are there majors that are not available to me because of my status?

• Does applying to this school/major require a background check?

• Would I be able to work if I graduated with this type of degree; would it lead to a background check or a certificate or state licensure that I would be ineligible for because I’m undocumented?

Further Alternatives

Many undocumented students have been creative in creating their own alternatives to find money to pay for college.

• Use online resources. Students have used websites like ChipIn.com to collect money to pay for part of their tuition, books, and other costs. ChipIn allows you to create an online account that can be promoted through an embedded ChipIn Widget on their website. They can also create their own ChipIn page at yourname.chipin.com. Students can post their personalized link on your Facebook page, Twitter, blog and other social media sites you may use. Don’t forget to ask friends to share it with their contacts!

• Hold a fundraiser. Students and their allies have also been able to create scholarships by hosting fundraisers. Youth have held bake sales, car washes, or dances in their school or local community organization to fundraise money for private scholarships. Don’t forget to publicize the fundraiser on social media! Create a Facebook event and invite friends, family, and teachers! Many have raffled off sports t-shirts, gift baskets, or other items to fundraise extra money for textbooks. Ask friends and family members to sell tickets at their school and at work! Explain to people the importance of the raffle you’re holding.

• Private loans are available from some banks. A qualified borrower who is undocumented must have a credit-worthy cosigner. Be wary that private loans may also come with high interest rates.

• Draft a donation letter. Work with the student to help draft a letter asking family, friends, and local businesses to support them financially in achieving their education. Donations letters should include why the student is pursuing higher education and the financial struggles they might encounter in achieving their dreams.

Don’t forget to have your student thank their donors!
What to Do If Your Student Has a Problem

Looking for Help

Contact the Immigrant Youth Justice League (IYJL) or the Illinois Coalition for Immigrant and Refugee Rights (ICIRR) if your student runs into any difficulties, such as:

- A university that says undocumented students can’t apply
- A public university that says they will not provide in-state tuition to undocumented students.
- An undocumented student in deportation proceedings

If you know undocumented student who end up in deportation proceedings, have them call the ICIRR Family Support Hotline: 1-855-435-7693.

The hotline is designed to help families across Illinois experiencing deportation 24 hours a day, 7 days a week. It is not a legal advice hotline, but it does refer callers to lawyers trusted by ICIRR who will provide a free first consultation.

Other services include referrals to social services that may be available, citizenship services, ministry referral, and post-call accompaniment by ICIRR’s Family Support Network.

Reach out to the Education Not Deportation for more information on fighting your case: www.endnow.org. Education Not Deportation (“END”) is a national campaign to prevent the deportations of young people, thereby allowing immigrant youth to continue their lives in the United States, pursue higher education and achieve their dreams.

Contact one of the organizations listed in Appendix B for advice.

Launch of ICIRR’s volunteer run Family Support Hotline.
Contact the admissions officer at these universities for the most up-to-date information. For a complete list of higher education institutions in Illinois go to: http://www.ibhe.state.il.us/InstitutionProfiles/Institutions.aspx

Conclusion

We hope this guide offers you some valuable advice in working with undocumented youth. It has been carefully compiled with the help of community groups (like the Illinois Coalition for Immigrant and Refugee Rights), educators (like Educators for Fair Consideration, e4fc.org), and of course undocumented students and allies (like those from the Immigrant Youth Justice League and Nuestra Voz). We do not know all the answers, and this guide is a work-in-progress. If you still have questions after reading this, please reach out to us. Our contact info is in Appendix B. Good luck!

Special thanks to our authors, who received not a cent for their hard work: Razan Abu-Hashish, Cindy Agustin, Mia Clark, Lili Gecker, Alaa Mukahhal, Carla Navoa, Evelyn Osorio, Ireri Unzuenta, and Reyna Wences.

Over 100 people - volunteers, counselors, community leaders, and undocumented youth - came together over three months to create this guide. We wish to thank some of our more prolific contributors and careful editors: Dylan Bellisle, Cynthia Brito, Maria Bucio, Dan Burke, Tanya Cabrera, Diana Colin, Rajelin Escondo, Pati Islas, Barbara Karpouzian, Maria Luna-Duarte, Lulu Martinez, Sarah Mesick, Irakere Picon, Fae Rabin, David Ramirez, Jonathan Rodrigues, Nathan Ryan, Arianna Salgado, Yanitza Salgado, Stephen Smith, Fred Tsao, Jose Vera, and Suzanne Zoheri.
