When & Where to Study Abroad

Spanish Majors have flexibility when and where they can study abroad. Students can take 200 and 300-level courses overseas, but it is recommended to take SPAN 251/251 or 252/253 (for heritage speakers) at Loyola. SPAN 101, 102, 103, and 104 can be taken overseas and can count for the Spanish Language Minor, but not the major. The e-portfolio cannot be completed while studying abroad, and internships must be conducted in Spanish language. The Spanish Program recommends participating in service-learning opportunities.
