Exercise Science Pathway to Study Abroad

When to Study Abroad
Exercise Science majors must carefully plan to be able to study abroad. It is recommended that Exercise Science majors wait until their junior year to study abroad, and should note that they must be on campus the Spring of their senior year to fulfill their internship and lab major requirement (EXCM 395). While core and elective courses are available to students through many programs, students can also potentially petition to take certain Exercise Science equivalent courses abroad. The below programs each offers course that have a global health or exercise science focus. It is recommended that students peruse the pre-approved course database, which contains study abroad courses deemed correspondent to core, elective, and major requirements.

Potential Program for Exercise Science majors:

Global Centers
- John Felice Rome Center
- The Vietnam Center

Global Exchange
- Melbourne, Australia (Deakin University)

Global Providers
Jesuit Providers
- Madrid, Spain (SLU Madrid)
- Newcastle, England (Loyola University Maryland Center)

API
- Brisbane, Australia
- Melbourne Australia
- Valparaiso, Chile
- London, England
- Leeds, England
- Cork, Ireland
- Dublin, Ireland
- Galway, Ireland
- Limerick, Ireland
- Querétaro, Mexico
- Auckland, New Zealand

- Dunedin, New Zealand
- Edinburgh, Scotland
- Madrid, Spain
- Doha, Qatar
- Salamanca, Spain
- Stirling, Scotland

USAC
- Gold Coast, Australia
- Melbourne, Australia
- Bangalore, India
- Chiang Mia, Thailand
- Cork, Ireland
- Reggio Emilia, Italy
- Auckland/Palmerston/
  North/Wellington, New Zealand
- San Ramon, Costa Rica
- Oslo, Norway
- Växjö / Kalmar, Sweden

IES
- Santiago, Chile
- London, England
- Dublin, Ireland
- Amsterdam, Netherlands
- Cape Town, South Africa
