Sociology Major Pathway to Study Abroad

When & Where to Study Abroad
Students majoring in Sociology have flexibility when studying abroad. Most students take electives and CORE abroad. Sociology 205, 206, and 301 can be taken overseas contingent on advisor approval. Sociology 365 (capstone course) must be taken at Loyola, but students can incorporate study abroad experiences into their capstone paper. The capstone course can be completed before or after studying abroad, but it is not recommended to study abroad during the last semester. It is possible to conduct an internship overseas, as long as there is a reflective, academic work component.
