**Most Common Idioms and Their Meanings:**

**Idioms** are expressions in general usage that reference a current or immediate situation, often by offering **general advice**, or **traditional words of wisdom**. Because idioms are often used in the middle of the situation they refer to, you will probably learn them mostly from conversations. Most are very imaginative, but make sense in context.

For example, imagine that your neighbor is making a lot of noise in his back yard. Because a very high fence separates your yards, you are unable to see exactly what is going on. You begin to climb up the fence, and try to look over, but your mother stops you. She tells you, “Don’t be nosey. **Curiosity killed the cat!**” She means that snooping around in other people’s business can be dangerous.

The following list contains a few common idioms you may encounter in conversation, along with their meanings:

- **Actions speak louder than words** = What people actually do matters more than what they say
- **Back to the drawing board** = A conclusion or result is bad and the whole attempt or experiment must be redone
