

## Guide for transferring credit from South Suburban College

Following is a listing of courses offered at South Suburban College which will be accepted for transfer credit in Loyola's Core Curriculum. We encourage you to use this guide as you select your courses.

In several knowledge areas of Loyola's Core, students must complete one required foundational (or Tier I) course that will introduce them to critical ideas and methods of analyses of that area and one Tier II course from a list of options to pursue their particular interests in more depth. If a foundational (Tier I) course is not provided in the guide below, this means that you will need to complete the requirement at Loyola.

| Loyola University Chicago<br>Liberal Arts Core   | South Suburban College<br>Approved Courses  |
