Administrative History

Mundelein College was established by the Sisters of Charity of the Blessed Virgin Mary (BVMs) as a Catholic women's college in Chicago. When the college opened its doors to its first students on October 3, 1930, psychology was one of the majors available to students. The department expanded throughout the college's history, with the major eventually encompassing six concentrations: General/Experimental Psychology, General/Social Psychology, Industrial/Organizational Psychology, Psychology and Social Welfare, Special Education: Emotionally Disturbed/Socially Maladjusted, and Special Education: Learning Disabilities. Psychology students at Mundelein received a broad theoretical background in the discipline as well as hands-on laboratory experience. In 1974, Mundelein acquired its own chapter of Psi Chi, the national honor society in psychology. Psychology alumnae of Mundelein eventually found careers as guidance counselors, mental health professionals, social workers, special education instructors, and college professors. Mundelein's Psychology Department remained an integral part of the curriculum until the college affiliated with Loyola University Chicago in 1991.

Scope and Content

The Mundelein College Laboratory Materials Records contain items related to the college's Psychology Department laboratories. The bulk of the collection consists of instruments and psychological tests used by students in the Psychology Department. The majority of the tests relate to infants and children.

Series 1: Psychology Materials, 1942-1972, n.d., Boxes 1-5

This series contains various laboratory instruments and tests from Mundelein College's Psychology Department. The items include instruments, paper tests, manuals, and reference materials. Some of the instruments are unidentified.
