

Parish Nursing Development, Education, and Administration

By

Phyllis Ann Solari-Twadell, PhD, RN, MPA, FAAN
Mary Ann McDermott, EdD, RN, FAAN

ISBN: 0-323-03400-4
Available September 2005

A must-have for anyone interested in the ministry of parish nursing practice!

- A multidisciplinary panel of experts presents a fundamental understanding of all aspects of parish nursing.
- Describes the integration of faith beliefs, spirituality, and health emphasizing the uniqueness of this specialty of nursing.
- Presents the role development and core interventions used by parish nurses, covering all basic concepts parish nurses need to know.
- Discusses the educational preparation for parish nurses, specifically for those in educator roles.
- Provides information about how to develop and administer a parish nursing program, focusing on the responsibilities of a parish nursing coordinator.
- Applies recent research findings in parish nursing to the functions of the role, giving evidence for the scope of practice of the ministry of parish nursing practice.
