SUBJECT: June 2014 - February 2017 LSAT Score Distributions

A table of score distributions and percentiles for the 2014-2017 testing years is available for your use. Please note that individuals who earned more than one LSAT score during this time period are represented more than once in the distribution.

While scores earned under nonstandard testing conditions had been excluded from LSAT score distributions in prior years, such scores have been included for all 3 testing years shown here.

Please feel free to copy the table or to otherwise make it available to faculty and administrators at your law school. If you have any questions, please contact Lisa Anthony at (215) 968-1376.
