Released in 1968, Planet of the Apes tells the story of an astronaut crew who crash-land on a strange planet in a distant future. The survivors stumble upon a society in which apes possess human-like intelligence and speech and have assumed the role of dominant species.

Join us for the screening of Planet of the Apes, starring Charlton Heston, Roddy McDowall, and directed by Franklin J. Schnaffer. The film will be followed with a post-screening conversation with Professor Michael Murphy (Theology).

Pizza and drinks will be provided.
