Participating in class discussions and activities is essential for meeting the learning goals of this course, particularly given that your diverse experiences about how to build and integrate knowledge in the disciplines can contribute to the class’ deeper understanding of reading in the content areas. Students are expected to complete course readings before class on Wednesdays.

Thorough preparation is particularly important because the class discussions and activities will be designed to extend, critique and supplement, as opposed to summarize the ideas in the readings.

Students will also engage in several individual and collaborative learning activities in class that include but are not limited to: in-class writing, informal presentations, jigsaw reading and presentation, facilitating class discussion, workshop hands-on activities. Collaboration with colleagues will facilitate our individual and collective success in this course.

Online Forum Posts: 20%
Discussion topics related to course readings will be posted on the Course Forum in Sakai. Candidates will be required to respond in 300 word comments and to respond to at least one other posting. These are due on the following dates:

For each strategy you will lead a mini-demonstration of the strategy from a list of resources provided in class, or that has been approved by the instructor beforehand. After the demonstration you will explain in a Sakai post a) how this strategy helps teachers b) supports students learning c) explain why the strategy works and possible variants of the activity beyond your demonstration.
