CIEP M44

Inclusive Instructional Methods for K-2
Fall 2018

Instructor: Bridget Farmand

Schedule: Th 4:15-6:45PM

Classroom: Cuneo Hall 003

Phone: 716-969-0871

e-mail: bridget.heppeler@gmail.com or bheppeler@luc.edu

Description

This course provides a review of standards for K-2 student learning with special emphasis on reading, mathematics, science, and social studies, as well as social-emotional learning. In this context, methods to adapt the curriculum to individualize instruction to meet the needs of students with special needs will be discussed. Issues of differentiating student needs, long and short-term planning, technology-assisted learning, and social skills curriculum will be addressed. Students will also learn how to actively create learning environments which promote positive learning results in general and special curricula by modifying the learning environment, using direct motivational and instructional interventions, and making use of appropriate augmentative and assistive technologies to support instruction. Behaviors related to low-incidence exceptionalities will be discussed and procedures for using this knowledge to respond to the varying abilities and behaviors of individuals with exceptional learning needs will be addressed. Modification of the curriculum and implementation of these accommodations will also be studied. The Council for Exceptional Children (CEC) Ethical Standards for Special Educators and Teacher Preparation Standards will also be addressed. Finally, the role of the early elementary educator in understanding, working with, and meeting the needs of families of children with exceptionalities will be explored. For more information about CEC standards, go to <http://www.cec.sped.org/>

Standards Alignment

CIEP M44 is aligned with the following CEC Standards for Initial Teacher Preparation:

1.0 Beginning special education professionals understand how exceptionalities may interact with

development and learning and use this knowledge to provide meaningful and challenging learning experiences for individuals with exceptionalities.

2.0 Beginning special education professionals create safe, inclusive, culturally responsive learning environments so that individuals with exceptionalities become active and effective learners and develop emotional well-being, positive social interactions, and self-determination.

5.0 Beginning special education professionals select, adapt, and use a repertoire of evidence-based instructional strategies to advance learning of individuals with exceptionalities.

7.0 Beginning special education professionals collaborate with families, other educators, related service providers, individuals with exceptionalities, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.

CIEP M44 is aligned with the following NAEYC Standards for Initial Teacher Preparation:

Standard 1: Promoting Child Development and Learning

1a: Knowing and understanding young children's characteristics and needs, from birth through age 8.

1b: Knowing and understanding the multiple influences on early development and learning

1c: Using developmental knowledge to create healthy, respectful, supportive, and challenging learning environments for young children

Standard 2: Building Family and Community Relationships

2a: Knowing about and understanding diverse family and community characteristics

2b: Supporting and engaging families and communities through respectful, reciprocal relationships

2c: Involving families and communities in young children's development and learning

Standard 4: using Developmentally Effective Approaches

4b: Knowing and understanding effective strategies and tools for early education, including appropriate uses of technology

4c: Using a broad repertoire of developmentally appropriate teaching /learning approaches

Standard 5.Using Content Knowledge to Build Meaningful Curriculum

5c: Using own knowledge, appropriate early learning standards, and other resources to design, implement, and evaluate developmentally meaningful and challenging curriculum for each child

CIEP M44 is aligned with the following Illinois ECE Standards:

Knowledge Indicators - The competent early childhood teacher:

1A.demonstrates current knowledge of integrated learning experiences for children from birth through grade three and understands the central concepts and tools of inquiry in each of the following content area: language and literacy (English language arts); mathematics; science; health, safety, nutrition, and movement (physical development and health); art, music, and drama (fine arts); and social science.

10A.understands how to plan developmentally and culturally appropriate curriculum.

10D.understands how to use and integrate appropriate technological resources into classroom instruction.

Performance Indicators - The competent early childhood teacher:

1D.plans, implements, and evaluates integrated, conceptually sound, meaningful learning experiences for children from birth through grade three.

10E.plans, implements, and evaluates developmentally and culturally appropriate curriculum and instructional practices that are based on knowledge of individual children, their families, and their communities, and of content areas and curriculum goals.

10H.creates, selects, evaluates, and incorporates developmentally and culturally appropriate materials and equipment into the instructional plans.

11B.understands how to adapt strategies to meet the specific needs of all children from birth through grade three, including those with disabilities, developmental delays, or special abilities.

11G.creates and modifies learning environments to meet the individual needs of children from birth through grade three, including children with disabilities, developmental delays, and special abilities.

11I.integrates and applies individual and group guidance and problem-solving strategies that develop positive and supportive relationships, encourage positive social interaction, promote conflict resolution, and develop personal self-control, self-motivation, and self-esteem in children from birth through grade three.

12C.understands how to select, integrate, and implement technology and multimedia resources with children from birth through grade three, including assistive technologies for children with special needs.

14F.uses a variety of assessment results to diagnose students' learning and development, develop a student profile, align and modify instruction, and design teaching strategies.

15E.establishes and maintains positive collaborative relations with families, colleagues, and other professionals working effectively to support child development, learning, and well-being.

CIEP M44 is aligned with the following Illinois ECSE Standards:

Knowledge - The competent ECSE teacher understands:

1D.developmental curriculum areas, including social, emotional, cognitive, language, and physical development

3A.the characteristics and etiologies of common disabilities and conditions in young children, including typical developmental patterns related to conditions such as prematurity and low birth weight, and describes specific implications for development and learning.

3C.the significance of familial, cultural, and social contexts for interpretation of disability and the role of the young child with disabilities within the family and community.

4B.the rationale for and rules and regulations governing the development of Individualized Education Plans (IEPs) and Individualized Family Service Plans (IFSPs).

4C.short-term and long-term teaching plans consistent with curriculum goals, learning theory, and individual differences, including personal and experiential differences related to disability.

4E.a variety of instructional strategies for fostering an array of learning and developmental outcomes within the context of individual abilities, dispositions, and needs, including those related to disabilities.

4G.the appropriate use of technology with young children, including assistive technology for use with

children with disabilities.

5E.a variety of preventive and remedial approaches for promoting self-regulation and discipline in groups and individuals.

9C.the structures and skills necessary to establish collaborative relationships with families, other professionals, and other community agencies.

9F.family systems theory and the dynamics, roles, and relationships within families.

9H; The typical concerns of families of children with exceptional needs and appropriate strategies for collaborating with families in addressing these concerns.

Performance - The competent ECSE teacher:

1G.develops and implements an integrated curriculum that focuses on children's needs and interests and takes into account culturally valued content and children's home experiences.

1I.matches different ways of knowing and methods of instruction to different academic, developmental, and functional/adaptive goals and outcomes

1J.promotes children's skills in using technologies to support learning across content and developmental areas, including technologies that provide access to the general education curriculum and to participation in natural environments for children with disabilities.

2F.how developmental and learning factors, including factors related to individual differences stemming from various disabling conditions, influence instructional decisions.

2I.applies knowledge of typical and atypical child development and the interrelationships among developmental domains and learning to interpreting behavior and making instructional decisions in academic, developmental, and functional/adaptive domains.

2L.incorporates goals and expectations of varying levels of complexity into instruction so that instructional activities are engaging and meaningful to children at different levels of development and with diverse learning needs.

3G. makes appropriate modifications in circumstances of work, expected outcomes, and teaching approaches, including technologies, to address and respect individual differences in learning needs, developmental levels, and preferences.

4J.develops and implements short-term and long-term curriculum and instructional practices in academic, developmental, and functional/adaptive curriculum areas, based on knowledge of individual children, the family, and the community.

4M.evaluates and selects intervention curricula, methods, and materials, including instructional technologies, that incorporate knowledge of curriculum content and respect individual variation in children's learning styles and performance modes, as well as variation in characteristics and ability in children with motor, sensory, health, social-emotional and/or cognitive disabilities.

4O.embeds multiple opportunities for addressing IEP and IFSP goals and outcomes into the daily routines and planned instructional activities of school, community, and home environments.

4R.outlines strategies and techniques for facilitating the functional integration of children with exceptional needs within various settings.

4T.designs plans that integrate technology, including adaptive and assistive technology, into educational settings.

5I.selects and implements methods of behavior support and management appropriate for young children, including a range of strategies from less directive, less structured methods to more directive, more structured methods.

8P.monitors, summarizes, and evaluates the attainment of child and family outcomes as outlined on the IEP and IFSP, using appropriate technologies to monitor and maintain records that convey meaningful information to families and to other professionals.

IDEA Objectives

The following objectives are essential to CIEP M44 and will be included in the IDEA online course evaluation for this course at the end of the fall semester:

1. Gaining factual knowledge (terminology, classifications, methods, trends)
2. Learning to apply course material (to improve thinking, problem solving, and decisions)
3. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course

Dispositions

All students are assessed on one or more dispositional areas of growth across our programs: **Professionalism, Inquiry, and Social Justice.** The instructor in your course will identify the dispositions assessed in this course and you can find the rubrics related to these dispositions in LiveText. Disposition data is reviewed by program faculty on a regular basis. This allows faculty to work with students to develop throughout their program and address any issues as they arise. Candidates will be assessed on the following dispositions in CIEP M44:

D7: valuing and utilizing the unique identities and backgrounds of all students, families and communities as essential assets in learning environments. (9L, 9N) (IB)

D12: Demonstrating that his/her personal and professional expectations and capacities influence the motivation, positive learning results and achievement of students. (4D)

D13: Demonstrating high levels of personal engagement and investment in all students' learning while remaining persistent in seeking strategies for reaching students who are not initially successful.

Conceptual Framework:

“Social Action through Education” is the conceptual framework infused into all programs within the School of Education. The underlying beliefs or principles that form the foundation of this framework include sensitivity and concern for others as essential societal values, and also the belief that caring for others will enhance the moral core of our communities and via a ripple effect, our society and the world as well. A desire to help others is an admirable first step, but collaborating cross-culturally to make a lasting impact beyond the level of the individual involves a more specialized set of competencies, some of which will be emphasized in this course. School professionals who desire to demonstrate effectiveness in diverse settings (where social justice is of great importance) must strive to understand themselves while simultaneously trying to assess the needs, resources, and priorities of young children

and their families. Empathy and a commitment to the challenging interpersonal work involved in instruction of diverse populations is the content to be addressed here. Primarily, this course addressed CF Standards 2 and 4. The following table better illustrates the relationship of all Conceptual Framework Standards to CIEP M44:

CF Standards demonstrate...	Candidates	Required Activities
CF1: ...an understanding of a current body of literature and are able to critically evaluate new practices and research in their field		Research to practice and presentations IEP Review
CF2: ...knowledge and skills in a variety of school and professional settings.		Lesson plans Clinical component and assignments
CF3: ...an understanding of issues of social justice and inequity.		Class activities highlighting features of underserved populations
CF4: ...skills that will enable them to work effectively with diverse clients.		Clinical component and assignments

Course Objectives

The candidate will demonstrate the ability to:

1. Explain and apply the concepts of inclusion, least restrictive environment (LRE), continuum of services as defined by IDEA 1997, and non-categorical service delivery models (e.g., problem solving). (LB56G) (GC1K1, GC1K3, GC1K5)
2. Articulate a personal teaching philosophy for students with diverse learning and curriculum needs in general education classrooms. (CC1G) (CC1S1)
3. Apply research supported instructional strategies to enable all students' access to the general education curriculum. (LB54N) (GC4K3, GC4S1, GC4S13)
4. Assess the curricular, social-emotional/behavioral needs of students with diverse learning and curriculum needs, and develop pedagogical skills to address those differences. (LB54T) (CC3K5, CC5S6, CC7S4, GC8S2)
5. Identify and discuss conditions influencing what and how students learn and modify instructional strategies to facilitate access to the general education curriculum for all students. (LB54N, LB54T) (CC2K2, CC3K2, GC6K3, GC7K4)

6. Design activities to assess students' knowledge and skills in language arts (i.e., reading, written expression, spelling) and math. (LB53N, LB53O, LB53P) (GC4S4, GC4S14, GC4S15, GC6S3, CC8S4, CC8S5)
7. Analyze assessments of students' learning on standardized and curriculum-based measurements to select instructional methods/strategies that facilitate access the general education curriculum. (LB53F, LB54N) (CC7S1, CC8S8, CC8S6)
8. Design a learning environment that allows for students with individual learning needs to meet learning standards in the general education classroom. (LB53F, LB54N) (GC3S1, GC4S6, CC5K1, CC5S5, GC5K2)
9. Identify and evaluate a "best practice" research base for instructional strategies/methods for teaching language arts, math, science, and social studies for students. (CC4C) (CC4S3, CC7K1)
10. Discuss pre-referral techniques/strategies for students with diverse learning and curriculum needs. (LB57A) (CC8K3, GC8K4)
11. Identify and practice skills which promote a collaborative approach to teaching (e.g., co-teaching, problem-solving, conflict resolution, etc.), to provide all students access to and benefit from general education. (CC4Z, CC4V, CC61, LB56G, LB57A) (CC4S3, CC4S2, GC5S6)
12. Evaluate and select assistive-technologies effective for students' with disabilities. (LB54P, CC4R) (GC4S7, GC5S2, CC6K4, GC6S5, CC7S9)
13. Apply positive behavioral intervention and support strategies to promote students' learning and social skills including strategies appropriate to behaviors related to low-incidence disabilities. (CC5f, CC5J, CC5X, CC5Z) (GC4SA, CC5S11, CC5K2)
14. Identify whole-school structures (e.g., school improvement plans) where the aforementioned objectives can be implemented to provide IDEA 1997 allowances of incidental benefit and school wide approaches in general education settings (LBS3C, LBS3G, LBS3P, LBS4A-C, LBS4Q) (CC5S1, GC7S8)

LiveText

All students, except those who are non-degree, must have access to LiveText to complete the benchmark assessments aligned to the Conceptual Framework Standards and all other accreditation, school-wide and/or program-wide related assessments. You can access more information on LiveText here: [LiveText](#).

Required Text

Gargiulo, R., & Metcalf, D. (2016). *Teaching in today's inclusive classrooms: A universal design for learning approach* (Second edition or later). Belmont, CA: Wadsworth Cengage Learning. This text is currently in its third edition. SEED scholars will receive this text via program Kindles.

Turnbull, A., & Turnbull, R. (2011). *Families, professionals, and exceptionality: Positive outcomes through partnerships and trust* (6th ed.). Upper Saddle River, N.J.: Pearson. This text will be made available via Sakai.

Additional readings will be assigned.

Candidates will access www.pbis.org throughout the semester and search for information related to PBS. Additional websites of interest to participants in this course include:

www.swis.org

www.aimsweb.org

www.whatworks.org

www.interventioncentral.org

www.easycbm.com

www.pdkintl.org

<http://www.projectachieve.info> www.corestandards.org

Language

In our class discussions and your writing, please adhere to the recommendations made by TASH regarding the use of “People First” language. An article outlining those recommendations will be provided to you by your instructor.

Diversity, Social Justice, and Exceptionalities:

The proposed philosophy of social justice for working with individuals with exceptionalities is adapted from TASH (a national organization for individuals with disabilities). The proposed philosophy of social justice for working with individuals with exceptionalities is adapted from TASH (a national organization for individuals with disabilities). **Teachers should use innovative educational strategies, cutting-edge research; and support grassroots, personal, and collaborative advocacy for people with disabilities.** (These are the qualities that have come to symbolize TASH's work (<http://www.tash.org/>). Described by many as pioneers of social change for persons with disabilities who have been under-served and undervalued in our society, the members of TASH are strong advocates of people who have traditionally been denied access to education, work, and community living).

Field Experiences

This course is designed to support candidates while they are developing their skills in meeting children’s educational needs in Sequence 7 early elementary school settings. Candidates' field experiences will primarily be supported by the TLSC 370 coach, but you are encouraged to find links among the experiences and assignments in each portion of the sequence. Your Integrated Unit assignment is also shared across these sequence activities and your instructors will collaborate to support you in developing it.

Course Requirements

Your responsibilities in this course include class attendance and participation, and completion of assignments (including observations, assessments, papers, quizzes, and in some cases professional development). These assignments are described in separate documents posted in the Assignments section of Blackboard. You are responsible for ensuring that you clearly understand assignment expectations *in advance of their due dates*. Thoroughly reviewing this syllabus and keeping track of assignment due dates are essential steps toward that goal.

Technology

Technology is an essential tool for developing one's own professional skills and for completing any degree program. This course assumes a basic and practical knowledge of technology. I assume that students will be proficient at word processing (including creating tables and diagrams), communicating via Loyola GroupWise e-mail, and downloading Microsoft Word and Acrobat Reader files. In terms of performing literature searches, it is helpful to have had experience; however, resource librarians are usually more than happy to help you with this. Otherwise, if you are not familiar with any of the preceding skills/equipment, it is your responsibility to become so.

The integrated instructional unit assignment is a core assessment in the School of Education Early Childhood Special Education program. This means that the SOE uses data from these assignments in order to assess student performance and progress relative to the conceptual framework described earlier in the syllabus. Core assessment performance is evaluated by the instructor, but these assignments **MUST** be submitted in accordance with the guidelines described in the appendix. A LiveText rubric is used to evaluate some assessments in this course.

LiveText will be the primary method of communication with students enrolled in this course. Since this system utilizes your Loyola Outlook email account, students are responsible for making sure that their account is in good working order. Also, students are responsible for checking their account for emails related to this class. If you have a personal email that you would rather use, you may forward emails from your student account to the personal account.

Assignments

Professionalism and Participation - 10 pts.

Candidates will be expected to demonstrate **professionalism** (e.g., attendance, participation) both in-class and at school sites. **Late work** is accepted, but not encouraged. Points will be deducted at the rate of 10% per day for any assignment turned in late unless alternative arrangements have been made. It is also understood that clinical sites' calendars will sometimes conflict with your assignment calendar, and adjustments to due dates may be necessary.

It is your responsibility to attend class, arriving and departing at the appropriate times. Missed classes or tardiness will result in point deductions as outlined in the section above. Students are also expected to complete all clinical hours, follow the behavioral expectations laid out in their clinical experiences handbook, and to complete the coursework associated with their clinical experiences.

As for participation, it is more than talking in class. Participation means allowing oneself to become engaged in the learning process. Good examples of participation include contributing comments and examples from your experiences, as well as building on the comments of others. Raising questions and listening and responding to others' comments and presentations also count. You should also be sensitive to your own level of participation and either increase it or decrease it when appropriate.

Examples of behavior leading to the loss of participation points include the following:

allowing your cell phone to disturb others, using lab/personal computers, and failure to engage in the positive forms described above. You will lose participation points when you are engaged in activities

such as side conversations with classmates, text messaging, and/or making/accepting phone calls during class, as well as for failing to do the assigned readings. Participation points will also be deducted when you do not attend class. Therefore, regular attendance is mandatory.

Professional Attitude and Demeanor Part I

- 2-Always prompt and regularly attend sessions.
- 1-Rarely late and regularly attend sessions (No more than 1 absence).
- 0-Often late and/or poor attendance at sessions (More than 2 absences).

Professional Attitude and Demeanor Part II

- 2-Always prepared for sessions with assignments and required materials.
- 1-Rarely unprepared for sessions with assignments and required materials.
- 0- Often unprepared for sessions with assignments and required materials.

Level of Engagement in Class

- 2-Always a willing participant. Contributes by offering ideas and asking questions in sessions, small groups and the whole class.
- 1-Often a willing participant. Contributes by offering ideas and asking questions in sessions, small groups or the whole class.
- 0-Rarely a willing participant. Rarely contributes to sessions by offering ideas or asking questions.

Integration of Readings into Classroom Participation

- 2-Often cite from readings; use readings to support points.
- 1-Occasionally cite from readings; sometimes use readings to support points.
- 0-Rarely cite from readings; rarely use readings to support points.

Listening Skills

- 2-Listen when others talk, both in groups and in sessions. Incorporate or build off of the ideas of others.
- 1-Listen when others talk, both in groups and in sessions
- 0-Rarely listen when others talk, both in groups and in sessions.

Research to Practice presentations (5 points each)

Candidates will select three research articles from peer-reviewed journals within the fields of education, special education, or educational psychology. Articles should present research on specific teaching strategies, family involvement, assistive technology or academic interventions (e.g., reading, math, writing, social skills, study skills) for students with disabilities. Candidates should choose one article focusing on one of the following focus areas: engaging families in the IEP process, academic skills, social-emotional/behavior, or MTSS. The article should focus on a strategy/intervention for students with a high incidence disability and must have direct implications for grades K-2. In other words, it should be an intervention used with these grades. Do not select pre-K, middle school, or high school related articles as they are beyond the scope of this course. Article should be submitted to your instructors for approval prior to the presentation. Candidates will produce a one-page (double sided) summary of the article according to the format provided below. Candidates will provide a link to the article and their written summary to the instructor(s) in advance of class (2 points). Candidates will present the intervention/strategy to the class (3 points), and facilitate a discussion around the effectiveness of the intervention/strategy (presentation format can follow the written summary format or creativity is

welcome). Presentation should actively model/demonstrate the activity (rather than just describing it) and include discussion, while summary sheet provides background.

Summary Format:

- 1. Journal & Article Identification:** Include an APA formatted citation that includes the name of the journal, month & year of publication for the selected article, authors of the selected article, and page numbers.
- 2. Problem Statement:** Describe the problem investigated/research topic of the article. Summarize the background research the authors provide to the reader.
- 3. Method of the Study:** Describe how the authors studied the problem. Include in your summary specifics about the design of the study, who the participants were, how many participants were included, and which techniques/instruments/observations were used to document results. This can be presented in bullet points
- 4. Results of the Study:** Summarize the results of the study. Highlight any positive outcomes and the conditions under which benefit was observed, as well as any examples/conditions under which little or no benefit was observed.
- 5. Classroom Implications/Applications of the Study:** Describe classroom implications/applications the authors outline as well as any implications and applications you identified. Discuss some of the ways a school or teacher might enhance the practicality of this intervention. If you find that this article has no practical applications, then you should select a different one.

IEP Review: (35 points)

Candidates will review one IEP of a K-2 student to identify the degree to which the IEPs align to both IDEA requirements and best practice. Candidates will present the following in the form of a PowerPoint or other format that includes:

- (a) Student's present levels of functioning, including strengths and needs
- (b) Data documentation – have areas of need and strength and goals been identified using data?
- (c) Student's Goals
- (d) Accommodations and Modifications
- (e) Overall experience reviewing the IEPs

For each section listed above, candidate will provide a summary of that section and insights of how the IEP aligns to IDEA requirements and best practice.

Chapter presentations 15 points

Candidates will be assigned material from the Gargiulo text to present in class. Points will be awarded based upon accuracy, creativity, and applicability of the material to teaching. An assignment description will be provided.

Lesson plans for children with special needs:

(10 points each, guidelines and rubric to be provided)

For this assignment, you will submit a minimum of three lesson plans that focus on developing skills of children with special needs in your S7 placement classrooms – this includes your ECSE placement, your math K-2 placement, or both. You will be evaluated based upon how you integrate your learning from CIEP M44 into that planning. Lesson Plan format will be discussed in detail in class.

Instructional video (30 Points)

Candidates will also choose one video from Sequence 7 that shows the candidate using strategies discussed in M44. It is understood that M44 focuses on K-2 and Sequence 7 takes place in ECSE. For this reason, you may select a video from any point in Sequence 7, including activities you lead in your classrooms, activities specifically designed for edTPA, or activities you lead in your math placement. The purpose is to link your interactions and teaching with children to the strategies and practices you are learning in class. This video will be submitted to LiveText and shared in class.

Assignments and Grading

Assignment	Submitted	Points
Professionalism and Participation	N/A	10
Research to Practice Presentations	In class with any required documentation to LiveText	3@ 5 pts ea 15
IEP Review	LiveText	35
Chapter presentations	In class with any required documentation to LiveText	2@10 pts ea 20

School of Education Policies and Information

Technology

Teacher candidates are expected to use technology in the preparation of their work for this module, but are also expected to incorporate it into their lessons that they prepare for students when appropriate. All students, except those who are non-degree, must have access to LiveText to complete the benchmark assessments aligned to the Conceptual Framework Standards and all other accreditation, school-wide and/or program-wide related assessments. You can access more information on LiveText here: [LiveText](#).

University Policies and Information

IDEA Course Evaluation Link for Students

Each course you take in the School of Education is evaluated through the IDEA Campus Labs system. We ask that when you receive an email alerting you that the evaluation is available that you promptly complete it. To learn more about IDEA or to access the website directly to complete your course evaluation go to: <http://luc.edu/idea/> and click on *STUDENT IDEA LOGIN* on the left hand side of the page.

Dispositions

All students are assessed on one or more dispositional areas of growth across our programs: *Professionalism, Inquiry, and Social Justice*. The instructor in your course will identify the dispositions assessed in this course and you can find the rubrics related to these dispositions in LiveText. *For those students in non-degree programs, the rubric for dispositions may be available through Sakai, TaskStream or another platform*. Disposition data is reviewed by program faculty on a regular basis. This allows faculty to work with students to develop throughout their program and address any issues as they arise.

LiveText

Each student in CIEP M44 must possess an activated LiveText account (this activation must be completed using LUC email addresses ONLY) in order to receive a grade for key assignments. If you do not have an account, it is your responsibility to follow up with the SOE. Failure to activate your LiveText account will result in failure of the course, since a major assessment would be left ungraded. All students, *except those who are non-degree*, must have access to LiveText to complete the benchmark assessments aligned to the Conceptual Framework Standards and all other accreditation, school-wide and/or program-wide related assessments. You can access more information on LiveText.com

Syllabus Addendum Link

- www.luc.edu/education/syllabus-addendum/

This link directs students to statements on essential policies regarding *academic honesty, accessibility, ethics line reporting* and *electronic communication policies and guidelines*. We ask that you read each policy carefully. This link will also bring you to the full text of our conceptual framework that guides the work of the School of Education – *Social Action through Education*.

Tentative Schedule

Note: The following topics will be covered in this sequence. This is a tentative schedule and might change so don't get too far ahead. Students are expected to have read the appropriate material prior to the class discussion.

Date	Topics/Class Activities	Assignments and Readings due this date
8/30 1	Orientation to class, review of syllabus Discuss Research to Practice	
9/6 2	<i>Understanding Inclusion</i> <i>Laws Related to SpEd and Inclusion</i> <i>Teaching in Today's Inclusive Classrooms</i> <i>IEPs</i> <i>Families as Partners in Developing Individualized Plans</i> <i>The Family Systems Perspective</i> <i>Policies, Practices, and Processes for Special Education and Inclusive Education</i> <i>RTI</i> <i>Public Policies and Family and Professional Partnerships</i>	Read: Gargiulo (2013) Ch 1 and 3 Turnbull (2011) Ch 1, 10 <u>Optional Reading:</u> Turnbull (2011) Ch 6
9/13 3	Hybrid Class: Research articles and resources for Research to Practice assignment.	Assignment Due: E-mail: - 1 possible article and/or resource by midnight for Research to Practice Presentation. -Top 3 choices for Chapter Presentation.

<p>9/20 4</p>	<p><i>Universal Design for Learning Family Interaction</i></p> <p>Discuss IEP Review</p>	<p>Read: Gargiulo (2013) Ch 2 Turnbull (2011) Ch 2</p>
<p>9/27 5</p>	<p><i>Diversity in the Classroom 1: Learners with High Incidence Disabilities Families Historical and Current Roles</i></p>	<p>Read: Gargiulo (2013) Ch 4 Turnbull (2011) Ch 5</p> <p>Assignment Due: -Research to Practice Presentations (2) -Chapter Presentation</p>
