Module Description

By focusing on the policy and practice in urban classrooms, this module addresses multiple perspectives on diversity, including the diversity in students' backgrounds (i.e., culture, language, ability) and classroom and school contexts (e.g., bilingual education, instructional contexts for students with special needs). This module engages teacher candidates in looking at how educational policies manifest in daily practice with diverse students in urban schools, such as Common Core State Standards; bilingual, English language learning, and other language policies, special education policies, and more. Through this module, teacher candidates: (a) learn the policies, laws, and court cases related to various policies, (b) see how educational policies are enacted into classroom practice to support students, and (c) make suggestions on continued ways to improve the achievement of diverse students in urban classrooms and schools.

English as a Second Language (ESL) Endorsement

By participating in TLLSC, all candidates complete the coursework and clinical hours to be eligible for an ESL endorsement. The pertinent understandings, knowledge, and skills for

Conceptual Framework and diversity

The Loyola School of Education Conceptual Framework states that: Our mission is social justice, but our responsibility is social action through education. While this module does not assess one of the Conceptual Framework Standards, the content is nevertheless grounded in the overarching principles of the Conceptual Framework. This module focuses on the policies and practices that impact the instruction and assessment of diverse students in urban schools, emphasizing the role of the teacher in making educational decisions and advocating for students. Additionally, candidates must demonstrate understanding of educational policy and critically evaluate practices in a variety of classroom and school settings. By focusing on policy and practice in urban classrooms, this module addresses multiple perspectives on diversity, including but not limited to: the diversity in students' backgrounds (i.e., culture, language, ability) and classroom and school contexts (e.g., bilingual education and instructional contexts for students with special needs).
