Days: Monday Seminar

Times: 5:00 – 6:45

On-Campus Location: Mundelein 203

Module Description

During this rigorous module, candidates continue to learn while also applying their accumulated knowledge and skills. The experiences in this sequence are designed to allow candidates to measure their growth in the areas of planning, instruction, and assessment while reflecting on what teacher candidates should know and be able to do prior to student teaching and prior to certification, including work with parents, families, and communities. Candidates will work with their mentor teacher two days per week while being supervised at the school site by a University Coach. Monday night seminars will be held on campus and lead by Loyola faculty. This sequence will better prepare candidate for independent work by discussing components of the Teacher Performance Assessment (edTPA). Candidates will compose a practice edTPA project during this semester. Candidates will administer, analyze, and reflect upon an assessment. This sequence addresses TLLSC Enduring Understandings 1, 2, 3, 4, 6, 7, and 9

Module Goals

Essential Questions:

- How does knowledge and understanding of my students impact my instructional planning, assessment choices, and delivery?
- How do educators draw on their understanding of education theories when making decisions concerning instructional planning, assessment, and delivery?
- How do educators collaborate with others to support student learning?
- How do educators balance relevance and rigor when choosing content and pedagogy?
- How should planning, assessment and instruction be modified for culturally and linguistically diverse students?

As a part of this module, candidates will understand that effective educators:

- Use research and evidence-based practices to design instruction that includes the alignment of goals, objectives, assessments and instructional strategies to meet the individual needs of students.
- Use data to drive instruction and assess teaching and learning effectiveness.
- Apply deep understanding of both content and pedagogy to provide developmentally appropriate instruction to all students.

As a part of this module, candidates will:

- Incorporate research and evidence-based practices into the design of instruction (e.g. UbD, IB, SIOP and UDL). (5S; 9A) (IB)
- Design a standards-based instructional unit that uses backward design (e.g. UbD) to align objectives with assessments and instructional practices based on high expectations for each student's learning and behavior. (3H; 3I) (IB)
- Select relevant instructional content, materials, resources and strategies for differentiated and universally designed instruction. (3Q; 5O) (IB)
- Use assessment strategies and devices that are nondiscriminatory, and take into consideration the impact of disabilities, methods of communication, cultural background, and primary language on measuring knowledge and performance of students. (7R) (IB)
- Use data to differentiate assessments to meet the needs of diverse learners. (1H; 3J; 5P) (IB)
- analyze and use student information to design instruction that meets the diverse needs of students and leads to ongoing growth and achievement (1H) (IB)
- Use data to plan for differentiated instruction to allow for variations in individual learning needs (3J) (IB)
- Use assessment data, student work samples, and observations from continuous monitoring of student progress to plan and evaluate effective content area reading, writing, and oral communication instruction (6H)
- demonstrates understanding of the benefits of multilingualism and incorporates ELs' cultural and linguistic assets into their practice in order to help ELs be socially and academically successful. (Part 27 Standard 5.C.i)

- demonstrates understanding of how to work collaboratively with families of ELs and communities to improve the learning environment, provide support, and advocate for ELs and their families. (Part 27 Standard 5.C.ii)

Conceptual Framework and Conceptual Framework Standards

Each syllabus is required to have a statement explaining how the SOE's Conceptual Framework (CF)—***Social Action through Education***—is exemplified within the context of the particular course. As a part of this statement, faculty need to attend to how the course addresses **diversity** and the social justice mission of the School of Education.

If the course(s) you are teaching houses a Core Assessment for one or more of the CF standards for your program area, it is critical that you include the CF standard(s) and describe how it weaves through the course and is assessed. For your reference: our conceptual framework is described here - www.luc.edu/education/mission/

SOE Conceptual Framework Standards (CFS)

- CFS1: Candidates critically evaluate current bodies of knowledge in their field.
- CFS2: Candidates apply culturally responsive practices that engage diverse communities.
- CFS3: Candidates demonstrate knowledge of ethics and social justice.
- CFS4: Candidates engage with local and/or global communities in ethical and socially just practices.

Dispositions

All courses in the SOE assess student dispositions. As a result, your syllabus is required to have a statement describing which SOE dispositions will be assessed in the course: ***Professionalism, Inquiry, and Social Justice***. Full transparency is critical to ensure that students are able to meet the expectations in this area. *Please be sure to state the disposition or dispositions that are assessed in the course and direct students to where they can locate the rubric on LiveText.* A description of how we use disposition data in the SOE is included in the SOE syllabus addendum.

Dispositions Assessed:

- **D3** value diversity and advocate for all students, particularly those from populations that are historically disenfranchised, underserved and/or overrepresented (including, but not limited to race, ethnicity, culture, language, SES, immigration status, exceptionality, ability, sexual orientation, gender, gender identity). (a1A, i1F, i2J) (IB)
- **D6** collect and analyze community, school, family, and student data to guide educational decision making. (a2E) (IB)
- **D7** value the unique identities and backgrounds of all students, families and communities as essential assets in learning environments. (i2D, i2F) (IB)
- **D14** demonstrate high levels of personal engagement and investment in all students' learning while remaining persistent in seeking strategies for reaching students who are not initially successful.

Smart Evaluation

Towards the end of the course, students will receive an email from the Office of Institutional Effectiveness as a reminder to provide feedback on the course. Students will receive consistent reminders throughout the period when the evaluation is open, and the reminders will stop once the evaluation is completed.

- The evaluation is completely anonymous. When the results are released, instructors and departments will not be able to tell which student provided the individual feedback.
 - Because it is anonymous and the results are not released to faculty or departments until after grades have been submitted, the feedback will not impact a student's grade.
 - The feedback is important so that the instructor can gain insight in to how to improve their teaching and the department can learn how best to shape the curriculum.
-

Writing Intensive Designation

TLSC 360 is designated "writing intensive" because the core assessments for this course are writing assignments that require candidates to produce multiple pieces of professional writing. These are the three tasks that comprise the "mock" edTPA: Task I Planning for Instruction & Assessment; Task II Instructing & Engaging Students in Learning; and Task III Assessing Student Learning. Each of these tasks require extended narrative writing responses that incorporate relevant research, theories, and data in alignment with the professional expectations for educators. As part of this course, candidates will draft and revise task responses with feedback from the instructor as well as their peers.

Grading Policy & Scale:

The final grade is based upon the completion of course requirements, as weighted above and following this scale:
