Module Description

By focusing on the policy and practice in urban classrooms, this module addresses multiple perspectives on diversity, including the diversity in students' backgrounds (i.e., culture, language, ability) and classroom and school contexts (e.g., bilingual education, instructional contexts for students with special needs). This module engages teacher candidates in looking at how educational policies manifest in daily practice with diverse students in urban schools, such as Common Core State Standards; bilingual, English language learning, and other language policies, special education policies, and more. Through this module, teacher candidates: (a) learn the policies, laws, and court cases related to various policies, (b) see how educational policies are enacted into classroom practice to support students, and (c) make suggestions on continued ways to improve the achievement of diverse students in urban classrooms and schools.

English as a Second Language (ESL) Endorsement

By participating in TLLSC, all candidates complete the coursework and clinical hours to be eligible for an ESL endorsement. The pertinent understandings, knowledge, and skills for teaching English learners (ELs) are targeted and integrated throughout the field-based program. In line with Part 27.425 of the Illinois Administrative Code, this module addresses the following standards to build candidates' expertise for teaching ELs:

- i) demonstrates knowledge of history, research and current policies and practices in the field of EL education and applies this knowledge to meeting the needs of ELs.

Conceptual Framework and diversity

The Loyola School of Education Conceptual Framework states that: Our mission is social justice, but our responsibility is social action through education. While this module does not assess one of the Conceptual Framework Standards, the content is nevertheless grounded in the overarching principles of the Conceptual Framework. This module addresses many of the major policies and practices that impact the instruction and assessment of diverse students in urban schools, emphasizing the role of the teacher in making educational decisions and advocating for students. Additionally, candidates must demonstrate understanding of educational policy and critically evaluate practices in a variety of classroom and school settings. By focusing on policy and practice in urban classrooms, this module addresses multiple perspectives on diversity, including but not limited to: the diversity in students’ backgrounds (i.e., culture, language, ability) and classroom and school contexts (e.g., bilingual education and instructional contexts for students with special needs).

Smart Evaluation

Towards the end of each module, students will receive an email from the Office of Institutional Effectiveness as a reminder to provide feedback on the course. Students will receive consistent reminders throughout the period when the evaluation is open, and the reminders will stop once the evaluation is completed.

- The evaluation is completely anonymous. When the results are released, instructors and departments will not be able to tell which student provided the individual feedback.
- Because it is anonymous and the results are not released to faculty or departments until after grades have been submitted, the feedback will not impact a student's grade.
- The feedback is important so that the instructor can gain insight in to how to improve their teaching and the department can learn how best to shape the curriculum.

Dispositions

All students are assessed on one or more dispositional areas of growth across our programs: ***Professionalism, Inquiry, and Social Justice***. The instructor in your course will identify the dispositions assessed in this course and you can find the rubrics related to these dispositions in LiveText. *For those students in non-degree programs, the rubric for dispositions may be available through Sakai, TaskStream or another platform.* Disposition data is reviewed by program faculty on a regular basis. This allows faculty to work with students to develop throughout their program and address any issues as they arise.

LiveText

All students, *except those who are non-degree*, must have access to LiveText to complete the benchmark assessments aligned to the Conceptual Framework Standards and all other accreditation, school-wide and/or program-wide related assessments. You can access more information on LiveText here: [LiveText](#).
