Module Description
This module is specifically designed for teacher candidates to appreciate, discern, and utilize the individual needs of students to plan instruction and support student achievement. In this module, student achievement is not only conceptualized as academic, but also social, emotional, behavioral, cultural, and linguistic. In this way, teacher candidates explicitly focus on the multifaceted nature of students' abilities, strengths, and needs by collecting multiple forms of data on authentic classroom assessments and then making suggestions for instructional planning to account for students' unique backgrounds, experiences, and needs. Through the use of case study research to conduct individualized assessments with diverse students, candidates will be able to apply learning to the instructional context with culturally, linguistically, and cognitively diverse students, specifically working with a labeled English learner (EL) and a student with special needs.

*School of Education Commitment - COVID-19: Loyola's School of Education (SOE) recognizes that this is an unprecedented time. We understand that moving into the 2020-2021 academic year while living in the context of the COVID-19 pandemic may stir feelings of uncertainty, fear, or anxiousness. We want you to know that your safety, health, and well-being, as well as that of our faculty and staff, remain our primary concern. We want to be able to support you in any way that we can. We ask you to embody the Jesuit value of *Cura Personalis,* or care for the whole person, as we prepare to learn together. We ask that you consider your way of being in this community, to act with care, and treat all with dignity to keep yourself and others safe.

The University understands that you may encounter obstacles that make reaching academic goals more difficult. We strongly encourage you to access the Student Resources on Loyola's COVID-19 Response webpage for information, supports, and resources on basic needs such as housing, food, financial aid, and medical and mental health. This web page also offers information on official University communications, access to technology, and student services. All Loyola University Chicago administrators, faculty, and advisors are also here for you.

The SOE is committed to working with all students to address any challenges that may arise during the semester. Please reach out to your professor as early as possible to discuss any accommodations you think may be necessary in order for you to successfully complete your coursework. We know this will be a semester like none other, but through collaboration, communication, and shared responsibility, we will not only get through this difficult time; we will thrive.

*COVID-19 Reporting Protocol: In preparation for our upcoming semester, Loyola University Chicago's Emergency Response Management team has been working to develop protocols in accordance with Centers for Disease Control and Prevention (CDC) guidelines that help ensure the health and safety of our community. Given the rising number of COVID-19 cases across our country, it is very likely that incidence within our community will occur in the fall.

Students, faculty, and staff who have tested positive for COVID-19 must report their case to the University as soon as possible. **If you have tested positive for the virus, please contact us at covid-19report@LUC.edu or by calling 773-508-7707. All COVID-19-related questions or feedback should continue to be sent to covid-19support@LUC.edu, not the new case reporting email address.**

SOE Vision

The School of Education of Loyola University Chicago is a community that seeks to transform members to impact local and global communities through the principles of social justice.

School of Education Mission

The School of Education at Loyola University Chicago, a Jesuit Catholic urban university, supports the Jesuit ideal of knowledge in the service of humanity. We endeavor to advance

professional education in service of social justice, engaged with Chicago, the nation, and the world. To achieve this vision, the School of Education participates in the discovery, development, demonstration, and dissemination of professional knowledge and practice within a context of ethics, service to others, and social justice. We fulfill this mission by preparing professionals to serve as teachers, administrators, psychologists, and researchers who work across the developmental continuum, and by conducting research on issues of professional practice and social justice.

Conceptual Framework and Diversity

The Loyola School of Education Conceptual Framework states that: Our mission is social justice, but our responsibility is social action through education. This module assesses the Conceptual Framework Standard #2 Candidates apply culturally responsive practices that engage diverse communities This module focuses on policies and practices at the micro-level that impact the assessment and instruction of diverse students in urban schools, emphasizing the role of the teacher in making educational decisions based on students' strengths and needs and advocating for students. This module addresses multiple perspectives on diversity, including but not limited to: the diversity in students' backgrounds (i.e., culture, language, ability) and classroom and school contexts (e.g., bilingual education, instructional contexts for students with special needs). Dialogue is expected to be open and honest while remaining respectful and appropriate at all times in order to foster deeper understanding of issues pertaining to diversity. In this module our focus on diversity will largely center around differences of ethnicity, language, culture, and abilities. As part of Loyola's commitment to social justice, issues of diversity will be discussed through an asset-based lens and in relation to equity, sensitivity, and prosocial practices. In our class discussions and in your writing, please adhere to the recommendations made by TASH, an advocacy group for disability rights regarding the use of person first language.

English as a Second Language (ESL) Endorsement

By participating in TLLSC, all candidates complete the coursework and clinical hours to be eligible for an ESL endorsement. The pertinent understandings, knowledge, and skills for teaching English learners (ELs) are targeted and integrated throughout the field-based program. In line with Part 27.425 of the Illinois Administrative Code, this module addresses the following standards to build candidates' expertise for teaching ELs:

> **2.D** . **Culture and Language –** The competent ESL teacher continually learns about his or her students' languages and the language variations and builds instruction on the cultural assets and backgrounds that students bring from their homes and communities.
> **4.A-- Issues of Assessment for ELs**– The competent ESL teacher demonstrates knowledge and understanding of various assessment issues that affect ELs, such as accountability, reliability, validity, bias, special education testing, primary and target language proficiency, language supports, and accommodations in all assessment situations.
