## **Course Description**

This writing course is required in the undergraduate reading teacher endorsement sequence. It is intended for undergraduate teacher candidates seeking elementary, middle school or secondary reading or language arts teaching endorsements. This course is based on the fundamental beliefs that people learn to write by writing; writing is a process; writing is a tool for thinking, and that writing is a social process. Teacher candidates will recognize the significance of their role as writing models as well as teachers, and will recognize and create connections to literacy instruction across the curriculum using the CCSS ELA. They will be introduced to research based strategies and instructional differentiation strategies and will design effective writing lessons, develop a philosophy of teaching writing based on best practices, and recognize elements of valid writing assessment. Teacher candidates will become familiar with developmental issues related to learning to write across grades K – 12, and issues related to struggling writers and students with culturally and linguistically diverse backgrounds. The role of instructional software and word processing skills will be highlighted. SMARTboard Notebook software will be utilized.

### Course Assignments:

#### Participation, Workshops, and Writer's Journal (30% of course grade):

Candidates are expected to consistently and actively participate in all class activities in discussions. They must arrive on time and stay for the duration of the class session. Class sessions will build

directly on assigned readings; candidates must come to class having read all assigned texts and articles.

In-class activities and pop or announced guided reflections will also count towards the participation grade and **will not be available for make-up.**

Students will also keep a writer's journal throughout the course wherein they will participate in the in-class journal question, and make an additional three entries every two weeks. In addition to written entries, students will gather writing lesson ideas, activities, plans from other sources. There will be journal checkpoints along the way. More information will be offered in a document in Sakei.

Students will also participate in the writing workshops in class and then complete their essays at home. In addition to refining the draft done in class, students will also provide feedback to two other colleagues.

**Reflection Papers (30% of course grade):**

Students will complete five reflection papers on assigned topics. The purpose of the reflection paper is to engage in making connections between the readings and class experiences, and one's own experiences or developing pedagogy. Students must (briefly) quote two different texts from the course in each paper, using APA format. Do NOT summarize the readings. Instead, focus on making connections between theory and praxis. Summaries will result in a deduction of points. Papers must be a minimum of two pages and not exceed three pages using APA format, 12 point Times New Roman font, double spaced.

**Pedagogy (40% of course grade):**

One of the primary goals of this class is to support students in developing their own classroom pedagogy. To this end, students will write lesson and unit plans, give brief teaching demonstrations, and facilitate a classroom session wherein they discuss a particular genre of writing and then teach a writing lesson to their colleagues.

Writing Unit I: Students will develop several lessons in a series that utilize mentor texts to teach a specific genre of writing. There must be a minimum of three lessons, and a maximum of five. Students will use the assigned lesson plan template. In addition to the lesson plans, students will also submit a justification and overview of their unit, as well as the supporting materials (i.e. assignments, rubrics, hand-outs, PowerPoints, etc.)

Writing Unit II: Students will develop several lessons in a series that utilize mentor texts to teach a specific genre of writing. There must be a minimum of five lessons, and a maximum of seven. Students will use the assigned lesson plan template. In addition to the lesson plans, students will also submit a justification and overview of their unit, as well as the supporting materials (i.e. assignments, rubrics, hand-outs, PowerPoints, etc.)

Brief teaching demonstration: Students will present one 15-minute teaching demonstration. The focus of the demonstration is teaching grammar in the context of writing. In other words, the demonstration must make it clear how students would approach teaching a particular grammar skill that will be of immediate value to a particular genre of writing.

Student facilitation: In the second half of the course, we will focus on continuing to develop our pedagogy by learning about specific genres of writing. Each student will choose one genre of writing. They will offer a five to seven-minute presentation about the genre they chose including a description, key skills and content knowledge students will need and an overview of useful teaching strategies for this genre. Students will then teach a 20 minute (max) demonstration lesson related to the genre as well as provide hand-outs (i.e. scaffolding materials, sample assignments with rubric, etc.) that colleagues can use in their own future classrooms.

More information about each assignment will be available in Sakei.

In the case study planning, implementation, analyses, and presentation with individual students, teacher candidates will utilize technology. Teacher candidates will use technology in order to collect (e.g. AimsWeb), record (e.g., digital voice recorder), analyze (e.g., research coding software), and share assessment data (e.g., Google site).

### Diversity

By focusing on individual, diverse students in urban classrooms, this seminar addresses multiple perspectives on diversity, including but not limited to the diversity in students' backgrounds (i.e., culture, language, ability) and classroom and school contexts (e.g., bilingual education, instructional contexts for students with special needs).

Dialogue is expected to be open and honest while remaining respectful and appropriate at all times in order to foster deeper understanding of issues pertaining to diversity.
