### **Smart Evaluation**

Towards the end of the course, students will receive an email from the Office of Institutional Effectiveness as a reminder to provide feedback on the course. Students will receive consistent reminders throughout the period when the evaluation is open, and the reminders will stop once the evaluation is completed.

- The evaluation is completely anonymous. When the results are released, instructors and departments will not be able to tell which student provided the individual feedback.
- Because it is anonymous and the results are not released to faculty or departments until after grades have been submitted, the feedback will not impact a student's grade.
- The feedback is important so that the instructor can gain insight in to how to improve their teaching and the department can learn how best to shape the curriculum.

## **School of Education Policies and Information**

### **Diversity**

The diversity of students, parents, families, homes, and communities is central to this module, and candidates will have the opportunity to explore cultural, linguistic, ability and many other forms of difference. In this way, candidates will: (a) push "beyond the label" to explore the resources and funds of knowledge present within the school, (b) analyze how the school aligns and incorporates those resources into educational practice, and (c) make suggestions for ways to improve school-based practice with diversity in culture, language, and ability.

Specifically related to ELLs, the strong basis and emphasis on culturally responsive pedagogy and practice in this module will prepare candidates to explore linguistically responsive pedagogy and practice in the upcoming sequence (Sequence 3). A key element for addressing special education will be discussions about how teachers are integrating individual student IEP goals into curriculum as a means of being culturally responsive based upon ability. This module is also a good place to

discuss inclusion as a school wide philosophy, rather than an isolated set of practices that occur in individual classrooms.

#### **Dispositions**

All students are assessed on one or more dispositional areas of growth across our programs: ***Professionalism, Inquiry, and Social Justice***. The instructor in your course will identify the dispositions assessed in this course and you can find the rubrics related to these dispositions in LiveText. *For those students in non-degree programs, the rubric for dispositions may be available through Sakai, TaskStream or another platform.* Disposition data is reviewed by program faculty on a regular basis. This allows faculty to work with students to develop throughout their program and address any issues as they arise.

#### **LiveText**

All students, *except those who are non-degree*, must have access to LiveText to complete the benchmark assessments aligned to the Conceptual Framework Standards and all other accreditation, school-wide and/or program-wide related assessments. You can access more information on LiveText here: [LiveText](#).
