**School of Education Commitment - COVID-19:** Loyola's School of Education (SOE) recognizes that this is an unprecedented time. We understand that moving into the 2020-2021 academic year while living in the context of the COVID-19 pandemic may stir feelings of uncertainty, fear, or anxiousness. We want you to know that your safety, health, and well-being, as well as that of our faculty and staff, remain our primary concern. We want to be able to support you in any way that we can. We ask you to embody the Jesuit value of Cura Personalis, or care for the whole person, as we prepare to learn together. We ask that you consider your way of being in this community, to act with care, and treat all with dignity to keep yourself and others safe.

The University understands that you may encounter obstacles that make reaching academic goals more difficult. We strongly encourage you to access the Student Resources on Loyola's COVID-19 Response webpage for information, supports, and resources on basic needs such as housing, food, financial aid, and medical and mental health. This web page also offers information on official University communications, access to technology, and student services. All Loyola University Chicago administrators, faculty, and advisors are also here for you.

The SOE is committed to working with all students to address any challenges that may arise during the semester. Please reach out to your professor as early as possible to discuss any accommodations you think may be necessary in order for you to successfully complete your coursework. We know this will be a semester like none other, but through collaboration, communication, and shared responsibility, we will not only get through this difficult time; we will thrive.

The purpose of this course is to introduce the preservice teacher candidate to the teaching and learning processes associated with research based comprehensive literacy instruction in K-2 elementary classrooms and will emphasize the scientific foundations of reading instruction: phonemic awareness, phonics, vocabulary, text comprehension and fluency. Developmental stages of learning to read and write, interactive teaching strategies, and instructional materials, methods and assessments will be presented. Emphasis will be placed on the development of a knowledge base needed to assist beginning teachers in making insightful decisions regarding their objectives and practices. Updated information on current trends, research, and state and Common Core Standards will be emphasized. These strategies, trends, and research will be meaningfully connected with the teaching of literacy via science, social studies, and other content areas. The needs of all children including those with special needs based on exceptionalities or on diversity of language or culture will be embedded in all course experiences to promote literacy development. Current multi-cultural children's literature will be used in simulated classroom teaching experiences. Clinical experiences, supervised by the faculty team, will provide opportunities for students to connect teaching theory with classroom practice.

**Social Action through Education**

“Social Action through Education” is the conceptual framework infused into all programs within the School of Education. The underlying beliefs or principles that form the foundation of this framework include sensitivity and concern for others as essential societal values, and also the belief that caring for others will enhance the moral core of our communities and via a ripple effect, our society and the world as well. Courses in the ECSE program have been designed to assist students in taking the first steps toward embodying the principles of social justice by collaborating cross-culturally to make a lasting impact beyond the level of the individual. This involves a specialized set of competencies, some of which will be emphasized in this course. The following Conceptual Framework Standards are specifically addressed in these courses:

## University Policies and Information

### Smart Evaluation

Towards the end of the course, students will receive an email from the Office of Institutional Effectiveness as a reminder to provide feedback on the course. Students will receive consistent reminders throughout the period when the evaluation is open, and the reminders will stop once the evaluation is completed.

- The evaluation is completely anonymous. When the results are released, instructors and departments will not be able to tell which student provided the individual feedback.

- Because it is anonymous and the results are not released to faculty or departments until after grades have been submitted, the feedback will not impact a student's grade.

- The feedback is important so that the instructor can gain insight in to how to improve their teaching and the department can learn how best to shape the curriculum.

### LiveText

All students, *except those who are non-degree*, must have access to LiveText to complete the benchmark assessments aligned to the Conceptual Framework Standards and all other accreditation, school-wide and/or program-wide related assessments. You can access more information on LiveText here: [LiveText](#).

### Additional ONLINE Course Policies

#### Privacy Statement

Assuring privacy among faculty and students engaged in online and face-to-face instructional activities helps promote open and robust conversations and mitigates concerns that comments made within the context of the class will be shared beyond the classroom. As such, recordings of instructional activities occurring in online or face-to-face classes may be used solely for internal class purposes by the faculty member and students registered for the course, and only during the period in which the course is offered. Students will be informed of such recordings by a statement in the syllabus for the course in which they will be recorded. Instructors who wish to make subse-

quent use of recordings that include student activity may do so only with informed written consent of the students involved or if all student activity is removed from the recording. Recordings including student activity that have been initiated by the instructor may be retained by the instructor only for individual use.

### **Synchronous Meetings**

Candidates will meet Synchronous via Zoom on the following dates: 1/19,2/2, 2/16, 2/25, 3/2, 3,23, 4/6, and 4/13. During these meetings we will discuss chapter content, debrief and reflect on clinical experiences.

### **Student Participation**

Candidates will be expected to demonstrate professionalism (e.g., attendance, participation) both in-class and at school sites. Late work is accepted, but not encouraged. Points will be deducted at the rate of 10% per day for any assignment turned in late unless alternative arrangements have been made. It is also understood that clinical sites' calendars will sometimes conflict with your assignment calendar, and adjustments to due dates may be necessary. It is your responsibility to attend class, arriving and departing at the appropriate times. Missed classes or tardiness will result in point deductions as outlined in the section above. Students are also expected to complete all clinical hours, follow the behavioral expectations laid out in their clinical experiences handbook, and to complete the coursework associated with their clinical experiences. As for participation, it is more than talking in class. Participation means allowing oneself to become engaged in the learning process. Good examples of presentation include contributing comments and examples from your experiences, as well as building on the comments of others. Raising questions and listening and responding to others' comments and presentations also count. You should also be sensitive to your own level of participation and either increase it or decrease it when appropriate.

Examples of behavior leading to the loss of participation points include the following:

allowing your cell phone to disturb others, using lab/personal computers, and failure to engage in the positive forms described above. You will lose participation points when you are engaged in activities such as side conversations with classmates, text messaging, and/or making/ accepting phone calls during class, as well as for failing to do the assigned readings. Participation points will also be deducted when you do not attend class. Therefore, regular attendance is mandatory.

### **Class Conduct**

One important aspect of a Jesuit education is learning to respect the rights and opinions of others. Please respect others by (1) allowing all classmates the right to voice their opinions without fear of ridicule, and (2) not using profanity or making objectionable (gendered, racial or ethnic) comments, especially comments directed at a classmate.

## Student Support

### Special Circumstances--Receiving Assistance

Students are urged to contact me should they have questions concerning course materials and procedures. If you have any special circumstance that may have some impact on your course work, please let me know so we can establish a plan for assignment completion. If you require assignment accommodations, please contact me early in the semester so that arrangements can be made with [Services for Students with Disabilities](http://www.luc.edu/sswd/) (SSWD) (<http://www.luc.edu/sswd/>).

## Center for Student Access and Assistance (CSAA)

Should you encounter an unexpected crisis during the semester (e.g., securing food or housing, addressing mental health concerns, managing a financial crisis, and/or dealing with a family emergency, etc.), I strongly encourage you to contact the Office of the Dean of Students by submitting a CARE Referral for yourself or a peer in need of support: [www.LUC.edu/csaa](http://www.LUC.edu/csaa). If you are uncomfortable doing so on your own, please know that I can submit a referral on your behalf. This link directs students to statements on essential policies regarding academic honesty, accessibility, ethics line reporting and electronic communication policies and guidelines. We ask that you read each policy carefully. This link will also bring you to the full text of our conceptual framework that guides the work of the School of Education - *Social Action through Education*.

## Diversity

By focusing on individual, diverse students in urban classrooms, this module addresses multiple perspectives on diversity, including but not limited to the diversity in students' backgrounds (i.e., culture, language, ability) and classroom and school contexts (e.g., bilingual education, instructional contexts for students with special needs).

Dialogue is expected to be open and honest while remaining respectful and appropriate at all times in order to foster deeper understanding of issues pertaining to diversity. Diversity will be defined to include issues of race, gender, religion, orientation, income, and abilities. As part of Loyola's commitment to social justice, issues of diversity will be discussed in relation to equity, sensitivity, and prosocial practices. In our class discussions and your writing, please adhere to the recommendations made by TASH regarding the use of "People First" language. If interested, an article outlining those recommendations will be provided to you by your instructor.

**Dispositions**

All students are assessed on one or more dispositional areas of growth across our programs: *Professionalism, Inquiry, and Social Justice*. The instructor in your course will identify the dispositions assessed in this course and you can find the rubrics related to these dispositions in LiveText. *For those students in non-degree programs, the rubric for dispositions may be available through Sakai, TaskStream or another platform.* Disposition data is reviewed by program faculty on a regular basis. This allows faculty to work with students to develop throughout their program and address any issues as they arise.
