Sequence Description

During this rigorous module, candidates will continue their work with their co-teachers also as they begin the transition into full-time teaching responsibilities. The experiences in this sequence are designed to allow candidates to apply their accumulated knowledge and skills, and measure their growth in the areas of planning, instruction, and assessment while reflecting on what teacher candidates should know and be able to do prior to student teaching and prior to certification. Candidates will work with their Co-teacher five days per week while being supervised at the school site by their Internship Coach. Monday night seminars will be held on campus and lead by the Internship Coach to encourage critical thinking around teaching experiences and issues. During this sequence, candidates will also complete the official edTPA assessment for licensure in Illinois. Candidates will administer, record, analyze, and reflect upon their unit. TLLSC 380 is the culmination of the teacher preparation program in both demand and expectation. Candidates will be observed and evaluated in a formative but rigorous manner as they progress toward mastery of their professional skills. This sequence will challenge students within their teaching context to examine their perspectives, understandings and practices in teaching learning and leading. This sequence most directly addresses TLLSC Enduring Understandings 3,9,10 and 11.

School of Education Commitment - COVID-19

Loyola's School of Education (SOE) recognizes that this is an unprecedented time. We understand that moving into the 2020-2021 academic year while living in the context of the COVID-19 pandemic may stir feelings of uncertainty, fear, or anxiousness. We want you to know that your safety, health, and well-being, as well as that of our faculty and staff, remain our primary concern. We want to be able to support you in any way that we can. We ask you to embody the Jesuit value of Cura Personalis, or care for the whole person, as we prepare to learn together. We ask that you consider your way of being in this community, to act with care, and treat all with dignity to keep yourself and others safe.

The University understands that you may encounter obstacles that make reaching academic goals more difficult. We strongly encourage you to access the Student Resources on Loyola's COVID-19 Response webpage for information, supports, and resources on basic needs such as housing, food, financial aid, and medical and mental health. This web page also offers information on official University communications, access to technology, and student services. All Loyola University Chicago administrators, faculty, and advisors are also here for you.

The SOE is committed to working with all students to address any challenges that may arise during the semester. Please reach out to your professor as early as possible to discuss any accommodations you think may be necessary in order for you to successfully complete your coursework. We know this will be a semester like none other, but through collaboration, communication, and shared responsibility, we will not only get through this difficult time; we will thrive.

SmartEval Objectives connected to the SmartEval Course Evaluation Request below are:

- Learning to apply course materials
- Developing specific skills, competencies, and points of view needed by professionals in the field
- Acquiring skills in working with others as a member of a team

Smart Evaluation

Towards the end of the course, students will receive an email from the Office of Institutional Effectiveness reminding them to provide feedback on the course. They will receive consistent reminders throughout the period when the evaluation is open, and the reminders will stop once they have completed the evaluation.

- The evaluation is completely anonymous. When the results are released, instructors and departments will not be able to tell which student provided the individual feedback.
- Because it is anonymous and the results are not released to faculty or departments until after grades have been submitted, the feedback will not impact a student’s grade.

-The feedback is important so that the instructor can gain insight in to how to improve their teaching and the department can learn how best to shape the curriculum

Dispositions Assessment:

All student in the School of Education are assessed on one or more dispositional areas of growth across our programs. Students are offered opportunities to receive feedback on their dispositional growth in the areas of **Professionalism, Inquiry and Social Justice**. Disposition data is reviewed regularly by faculty to work with students to develop throughout their program and address any issues as they arise. The specific disposition or dispositions for this course are listed on this syllabus and the descriptions for the expected behaviors for the disposition(s) can be found on the rubric posted in LiveText for this course.

Module Assignments

● **Module Participation & Reflections: 25% of final grade**

- Candidates are expected to consistently and actively participate in all TLSC 380 class activities and discussions synchronous or asynchronous. Since much of this module is based additionally on virtual site interactions, candidates are expected to communicate and collaborate professionally with co-teachers and students and will be evaluated by a **participation rubric** by both their internship coach and co-teacher.
- Candidates will work to establish a schedule/responsibilities with their co-teacher based on the expectations for this course and the supports required by the school/teacher/students and fulfill those responsibilities as agreed for the duration of the session. Candidates should aim to transition into full-time teaching based on the suggested pacing guide whether teaching in-person, virtually or in a hybrid format. Candidates must document their time EACH WEEK in a google doc using the **Communication & Collaborations form** provided and update the doc weekly. Co-teachers should verify each week's attendance/entry by adding their "signature" in a comment box. Candidates should submit their full google doc to Livetext at the conclusion of their module.
- Seminar sessions will build directly on field experiences and agreed upon discussion topics; candidates must come to class prepared to participate in the seminar discussions appropriately and actively. Also required is the completion of reflective prompts each week which must also be submitted **via LiveText at the end of the semester.**
- **ZOOM ETIQUETTE:**
 1. This is considered class time so all actions should be as if you are on campus in class.
 2. Arrive on time
 3. Keep your camera on throughout seminar
 4. Remain in one place during the seminar
 5. It's ok to eat---just keep it quiet
 6. Have a designated "office" space to minimize interruptions
 7. Don't multi-task—It's obvious when someone is on their phone or doing other work
 8. If you need to momentarily leave our session, please post a note in the chat box.

● **Teaching Evaluations: 50% of final grade**

- Candidates, in collaboration with their Internship Coach and Co-teacher, will arrange for a total of 4 teaching evaluations: 2 formative (interim) teaching evaluations and 2 summative (midterm and final) evaluations. Evaluations should be signed by participants and uploaded to LiveText by University Coach.

For Each Lesson Evaluation

- Candidates will prepare a full written lesson plan and materials for a virtual lesson or in-person lesson presentation/activity. Candidates will coordinate with their coach and co-teacher a date/time to implement the learning activity for their students. Co-teachers should be available to observe your lesson presentation.

IF COACHES are not able to join a session in real-time, candidates should plan to record the session and share it with their coaches per the consent guidelines provided by their school CPS. Candidates must submit written **lessons plans (see template), links and materials to Coach and Co-teacher(s) no later than 48 hours prior to each observation via email.**

○ **Mid-Term Summative Evaluation (1)**

- Midway through the Sequence 8, sometime during weeks 7-8, a summative mid-term evaluation/observation will be completed. Both the Internship Coach and the Cooperating Teacher will complete a mid-term evaluation of the Candidate. The mid-term evaluation is meant to identify the Candidate's progress or lack thereof. While a formal debriefing including the Cooperating Teacher is not necessary, the Internship Coach is expected to discuss/meet in person/meet via email/meet via phone conference with the Cooperating Teacher regarding his/her mid-term evaluation of the Candidate.

Final Summative Evaluation (1)

- The final student teaching evaluation/observation will include the final evaluation and a summative debriefing of the Candidate's progress or lack thereof. This final observation and meeting will occur sometime during weeks 14-15. Both the Internship Coach and the Cooperating Teacher will complete a final evaluation of the Candidate, and will participate in a portion and/or all of the final debriefing.

Interim Evaluations (2)

- The interim observations will be formative in nature, will include a formal debriefing between the Internship Coach and the Candidate, and will include the identification of goals on which the Candidate is to work for the next observation. These observations are to be scheduled in accordance with the schedules of the Candidate, Cooperating Teacher and Internship Coach.

Grading of Evaluations

- **50% of the final grade reflects the results of the midterm and final evaluations**, the overall job performance of the student, including their ability to respond to corrective feedback and suggestions from the cooperating teacher and Internship Coach.

● ***Classroom Management Plan: 10% of final grade***

- Candidates will gradually throughout the semester discuss with their Cooperating Teacher issues related to classroom management and developing positive relationships with children (as guided by journal topics assigned by university coaches). Candidates will ask for specific information about the classroom management plan already in place and ask for an opportunity to tweak that plan or try new strategies with the whole class or a few individual students. They may teach a lesson to help students gain important social or behavioral skills change a rule. Candidates will attempt to determine the function that impeding behaviors have for individual students who do not follow classroom rules/procedures. They will reflect on issues related to classroom management and gradually develop their own position on classroom management. A summary of these considerations will be submitted as a short essay via LiveText.
- Candidates whose site placement does not allow for this type of inquiry under our current circumstances can instead submit a plan and reflective essay on how classroom management has shifted in remote settings, what considerations must teachers make, expectations for participants, effective strategies for good practice and addressing issues that might arise. Candidates should use the classroom management rubric to guide this response and submit in the Livetext portal for Classroom Management Plan.

● ***School Service Hours: 5%***

- Candidates are expected to participate in an area of volunteer service within the school. The work they do does not need to directly benefit the students in their own classroom as long as it benefits the school or school community as a whole. Examples of appropriate service projects include but are not limited to

sponsorship of a club, tutoring, before/after (extended day) school care, volunteering at a school open house, working on a school fundraiser, participating in parent night, assisting with curriculum mapping, working with students on Special Olympics or adaptive recreation programs, attending LSC or PTA meetings. These hours may be in-person or virtual. School service projects should be a minimum of 10 hours in length for a 15-week placement. School service should be documented using the form provided by your Internship Coach. Your school service form should be submitted in LiveText.

- Candidates whose site placement might not be able to provide opportunities for service under our current circumstances can choose to fulfill this requirement by submitting *an annotated list of school community resources developed to share with potential students and families. They should create an asset map of the organization and provide 2 community resources with a brief description of highlights/services in each of the following categories:*

- *Health and Wellness*
- *Financial/Economic/Legal Assistance*
- *Language Services*
- *Childcare/Educational Supports and Service*
- *Recreational/Entertainment Resources*

- **Summative Assessment: 10%**

- Candidates will complete a *Professional Practice Profile (PPP) essay*. The PPP consist of two reflective essays that teacher candidates complete at the conclusion of their program. The first is a reflective statement about the School of Education's conceptual framework, *Professionalism in the Service of Social Justice*. The second is a reflective statement about the role of community in education and the candidates' development of collaborative relationships throughout the TLLSC program. Rubric in LiveText.

- **Engaged Learning Documentation**

- All students enrolled in an engaged learning class are required to document their site information and learning outcomes in LOCUS. This information is used for institutional research and documentation; however, most important to you, it is used for risk management/insurance purposes and to substantiate your fieldwork experience. Follow the instructions at this webpage to enter your information: <http://www.luc.edu/experiential/forstudents/locustutorial/>.
