

LOYOLA UNIVERSITY CHICAGO

Learn with Purpose

Do well and do good.

At Loyola University Chicago, the pursuit of knowledge and the pursuit of justice are inseparable. Shaped by our Jesuit roots, we believe in the unity of mind and heart, where a good education goes beyond the textbooks, beyond the classroom, and beyond the years you spend as a student.

Here, we will challenge you to find meaning and purpose in everything you do, and empower you to use what you learn to make a difference.

Loyola students conduct field research in Lake Huron as part of a partnership with the University of Michigan Biology Station.

Classrooms for Deeper Engagement

We prioritize individual growth and ensure that you'll receive focused attention and guidance.

"I look at every student and think, how can I help them? Serving students doesn't mean just giving instructions and handing out A's. Serving students is understanding individuals and creating strategies to help them succeed."

NENAD JUKIĆ

What do you want to study?

Are you a logical person with your sights set on STEM? An introspective person drawn to the humanities? A creative person with a penchant for the arts? Or maybe you're uncertain about what path to take, and that's okay—it's part of why we have the **Core Curriculum**.

Loyola's Core Curriculum allows you to explore multiple fields before declaring your major. Even if you already have a major in mind, the Core will broaden your perspective, preparing you for an increasingly interconnected and complex world.

COMPONENTS OF THE CORE CURRICULUM

- WRITING
- ART
- HISTORY
- LITERATURE
- MATH
- SCIENCE
- SOCIETY/CULTURE
- PHILOSOPHY
- THEOLOGY
- ETHICS

A biology and a philosophy professor teach a joint course about emerging technologies.

More opportunities to know and grow...

The Core Curriculum opens doors to new passions and interests. As a result, you may decide to get a **minor**, **double major**, or enroll in one of the **70+ dual degree programs**, where you can earn a bachelor's and a master's degree in only five years. Many of these programs are interdisciplinary, offering you more wholistic engagement with your area of interest.

Maybe a class introduced you to a topic that you want to further explore. The Loyola Undergraduate Research Opportunities Program (LUROP) gives you the opportunity to conduct **research** on that topic alongside a faculty member. You'll learn more about what interests you while also gaining experience that will help you find a job or get into graduate school. You'll also have the chance to present your work at the annual Undergraduate Research and Engagement Symposium, attended by faculty, industry professionals, and community partners.

“

I was a little put off by the many course requirements, but then I took the required philosophy course and was fascinated by it. I ended up taking another philosophy course, and later decided to pursue a minor in philosophy. If Loyola didn't require us to take these courses, I would have never even considered that.”

City adventures await...

The third biggest city in the U.S. is the perfect place to build connections and launch your career. We cultivated strong partnerships with numerous organizations across Chicago to help connect you with **internship and fieldwork** opportunities. Our Career Services team also hosts **career fairs**, attracting employers actively seeking talent like you.

7,000+

EMPLOYERS USED LOYOLA'S JOB BOARD TO SEEK LOYOLA TALENT

Chicago has offered us so much, so it's only right that we give back. **Community service** is an essential part of the Loyola experience. Many of our courses have built-in community service elements, and we have over 40 service and advocacy clubs that you can join.

Beyond Chicago...

There's a lot to learn from Chicago, and even more to learn from the world. When you **study abroad**, you step outside your bubble and immerse yourself in different cultures, languages, and ways of life. Navigating unfamiliar environments will challenge you to confront your own identities and values. It's a transformative journey that holds immeasurable value, which is why we offer more than 150 study abroad programs in over 50 countries.

THE ROME CENTER is our full residential campus in Rome. You can spend a summer, a semester, or even a full year there!
