FIRST YEAR INFORMATION

IMPORTANT INFORMATION

☐ Wellness and Care for Self and Others
Your safety and wellness are important to us as a community. If you or a friend need assistance, please talk to your academic advisor, hall director, minister or other staff member on campus. Check out the Wellness Center for resources regarding alcohol, counseling, general health and more. Remember, as a community, we promise to care for ourselves, care for others and care for our community.

TIP OF THE WEEK

Well first off all give yourselves a pat on the back for almost finishing their first month of college. At this time, most of your classes will be having their first tests that cover a wide range of units. Don’t freak out! Just set some time out for yourself to be able to stick to your studies but also to have some relaxation time. Most of you have probably been using your organizer the school gave you to keep track of tests and quiz, that’s good, KEEP doing that. If you feel that you might not be ready for those upcoming tests them you might want to stop by at the Tutoring Center for Academic Excellence here at the Sullivan Center. They are very helpful to setting up groups for your classes. Otherwise also setting up some study groups within your classes is a great way to understand the material too. If you are still not getting the material and the tests are coming up use your professors office hours, they greatly appreciate seeing their students and being able to help clear things up.
