

MASTER OF SCIENCE IN **SUPPLY CHAIN MANAGEMENT**

MS DEGREE • MBA/MS DUAL DEGREE

Loyola University Chicago's Quinlan School of Business is committed to equipping you with the skills and expertise to help you advance your career and make a significant impact on society.

The Master of Science in Supply Chain Management (MSSCM) is one of the top-ranked specialized supply chain management degree programs in the nation. This degree is STEM-certified by the U.S. Department of Homeland Security and the National Science Foundation.

The program focuses on the supply chain-related areas seen in many industries, including health care, manufacturing, and retail. These areas include distribution, inventory, logistics, purchasing, transportation, and warehousing. The program has a heavy emphasis on data-driven analytical skills. Students in the program will develop and master techniques in computer simulation, data analytics, data visualization, forecasting, and network optimization. Finally, as business ethics and leadership are core to everything we do at Loyola, graduates of the program will be prepared to be the responsible supply chain leaders of tomorrow.

PROGRAM STRUCTURE

- The degree program offers full-time enrollment
Average time to completion: 1.5–2 years
- The degree program offers part-time enrollment
Average time to completion: 2–3 years
- This degree offers some online courses, offering the flexibility to complete in-person, on-line, or a hybrid of the two

You will complete 12–16 courses, depending on your academic background. Courses are taught in 10-week quarters. You may enter the program at the beginning of any quarter. Classes are offered at Loyola's Water Tower Campus in downtown Chicago.

As a Quinlan student, you'll also have the option to expand your credentials and marketability by earning a professional certificate. Five certificates are available:

- | | | |
