

Doctor of Nursing Practice (DNP), Psychiatric Mental Health Nurse Practitioner

The DNP Psychiatric Mental Health track will prepare you to practice at the highest level of nursing in a mental health care setting. You'll develop the advanced skills and knowledge to effectively diagnose, treat, and care for patients with mental health needs. A Specialization in Substance Use and Addiction is also available.

Eligibility

- BSN or MSN degree ✓
- Current nursing License ✓
- 2,000 hours of recent acute care clinical practice experience prior to starting program practicums ✓
