

### **2021 Monthly Premium Rates**

Loyola is proud to announce that we are able to maintain access to high quality and services of health care for our employees in 2021.

While Loyola continues to offer family health insurance coverage, we believe that every employer bears the responsibility of providing medical benefits to its own employees. Please see below requirements to attain discounted premium rates. Please also note that 2021 premium rates will also be determined by your salary range.

#### **Spousal/LDA Premium**

If you are covering a spouse/Legally Domiciled Adult (LDA) on a Loyola medical plan, you will automatically be assessed an additional \$100 monthly spousal premium. If your spouse/LDA is not eligible for other employer group coverage, you can avoid the premium by completing the required online certification through Employee Self-Service (ESS). The certification must be renewed each year in order to receive the reduced premium.

#### **Tobacco Premium**

Faculty and staff who have used tobacco products in the last three months will incur a \$50 per month tobacco premium. The required online certification is completed through Employee Self-Service (ESS). The certification must be renewed each year in order to receive the reduced premium.

#### **Wellness Discount**

As part of our wellness program, faculty and staff who enroll in one of the University's medical insurance plans in 2021 will be eligible to receive a \$50 reduction on health insurance premiums per month—an annual savings of \$600 for the 2021 plan year. **Faculty and staff, including covered spouses/LDAs, will be required to participate in the biometric screening and complete the Health Power Assessment in order to receive the reduced premium.**

*Note: If you are newly hired during the year, you will receive the wellness incentive monthly premium rate. You will not be required to complete the wellness incentive requirements until the following year.*
