Join our community of seekers, made up of accomplished colleagues with diverse backgrounds and experience. You’ll share in enlightening conversations, develop deep relationships, and form an extraordinary network while traveling the world in an immersive, transformational, and unforgettable journey.
Transition to rewirement

As the adage goes, “Great leaders never stop learning.” As you approach the summit of your storied career, Ignatian Legacy Fellows is a special opportunity to deepen your learning during rewirement, the meaningful, productive next chapter of life. We’ll help you answer the questions, “What next?” and “How can I share my knowledge and experiences with the next generation?”

Over the course of a year, you will learn thoughtful and contemplative ways to discern societal needs and make a difference in the world. You will also engage with leaders, faculty, and students taking part in exciting initiatives at Jesuit institutions around the world. And you will uncover insights on how to use your talents and passions for the greater good.

THE JOURNEY
During our three-part journey, we will look to the Spiritual Exercises of St. Ignatius as our guide.

1 INWARD JOURNEY
This pilgrimage creates time for a life review, to look back, collect stories, and claim one’s gifts to meet the challenges of rewirement.

2 TRAVELERS JOURNEY
Join this Ignatian pilgrimage which values hospitality, accompaniment, storytelling, food, laughter, learned guides, prayer, and spirituality and gain insight for the future.

3 INTERGENERATIONAL JOURNEY
Learn and grow with diverse, global Jesuit leaders, meet students in professional, social, retreats, and parishes to listen to their challenges.
