### PhD in Nursing Science Program

#### ■ ■ ■ Program Overview ■ ■ ■

Loyola University Chicago's PhD in Nursing program prepares nurse scholars to improve human health through the development and expansion of nursing knowledge.

Graduates of the program are prepared to initiate a beginning program of research; incorporate social, cultural, political, economic, and ethical considerations into nursing scholarship and practice; and assume leadership roles in nursing research, education, practice and/or administration. As members of the international community of scholars, graduates further the Jesuit mission through the generation and dissemination of knowledge in the service of humanity. Consistent with this mission, the PhD program includes coursework in teaching methods and a teaching practicum in the program of study. The PhD in Nursing degree is conferred through the Graduate School of Loyola University Chicago.

The program of study is offered in a weekend format, with classes meeting on campus one weekend each month (Saturday-Sunday) during the course of the semester. Between each weekend class meeting, a 1 to 2 hour online, synchronous class meeting is held.

#### ■ ■ ■ Sample Program Plan ■ ■ ■

The program of study consists of a minimum of 45 credits beyond the MSN degree, distributed across the areas of nursing science development, preparation for the researcher role, philosophical and ethical foundations, academic role preparation, and cognate coursework.

	<b>Fall</b>	<b>Spring</b>	<b>Summer</b>
Year 1	GNUR 432: Philosophical Bases of Nursing Science (3) GNUR 500: Conceptual Inquiry(3)  Pre-requisite Stats *	GNUR 501: Theoretical Foundations of Nursing Science (3) GNUR 512: Quantitative Methods and Design for Nursing Research (3) GNUR 546: Introduction to Linear Models (3)	GNUR 513: Qualitative Methods for Nursing Research (3)
Year 2	GNUR 519: Measurement for Nursing Research (3) GNUR 547: Categorical Analysis (3)	GNUR 540: Nursing as a Moral Practice (3) GNUR 544: Nursing and Health Policy (3) **GNUR 532: Research Internship (2-3)	GNUR 509: Teaching Methods (3) Elective (3)
Year 3	GNUR 510: Teaching Practicum (3) GNUR 542: Grantsmanship (1) GNUR 610: Qualifying Examination (0)	GNUR 600: Dissertation Supervision (0) Elective (3) ***	GNUR 600:Dissertation Supervision (0) Elective (3)
Year 4 and beyond	GNUR 600:Dissertation Supervision (0)as needed	GNUR 600:Dissertation Supervision (0)as needed	GNUR 600:Dissertation Supervision (0) as needed

*\*An introductory statistics class (taken in the last five years) is a prerequisite to taking the two advanced statistic classes. If needed it should be taken in the summer prior to year one or in the first semester of year one.*

*\*\*GNUR 532 may be taken in the Fall of Year 2, Spring of Year 2 or Fall of Year 3*

*\*\*\*Responsible Conduct in Research and Scholarship (RCRS) course and the Collaborative IRB Training Initiative (Citi) course must be successfully completed prior to submitting your IRB proposal. In addition to the post-MSN program plan listed above a BSN-to PhD program option is also available.*

## ■ ■ ■ Dissertation ■ ■ ■

A directed dissertation is required. Research in the Niehoff School of Nursing focuses on, but is not limited to:

- Social Context, Stress, and Epigenetic Determinants of Health
- Prevention and Self-Management of Chronic Disease
- Health Disparities and Vulnerable Populations
- Optimizing Outcomes in Education and Practice

## ■ ■ ■ Application Process ■ ■ ■

Admission decisions are made throughout the year. Early application is encouraged. All applications undergo a two-stage review process. During the first phase, the application and supporting materials are reviewed by the PhD in Nursing committee. During the second phase, the applicant is interviewed by a member of the Graduate Faculty.

A completed application consists of:

- A completed application form
- Official transcripts for all undergraduate and graduate study
- Scores on the Graduate Record Examination (GRE). May be waived if GPA from a previously completed program is 3.25 or above.
- Three letters of recommendation from nurses with an earned PhD
- A personal statement describing professional and academic goals, research interests, and any potential faculty mentors from the School of Nursing.
- Professional vita or resume
- Copy of RN license
- Copy of an authored or co-authored paper

International applicants have additional submission requirements.

All materials should be sent directly to: Graduate Enrollment Management, Loyola University Chicago, 820 North Michigan Avenue, Chicago, IL 60611.

Phone: (312) 915-8950; Email: [GradApp@luc.edu](mailto:GradApp@luc.edu); Website: <http://www.luc.edu/gpem>
