

CareerLeader

Currently enrolled Quinlan MBA and MS students may meet with your Career Coach in Business Career Services during a scheduled career coaching appointment to learn how the CareerLeader Assessment may help you determine how a combination of your skills, interests, and motivators can help you navigate and manage your career and make future life and career decisions.

The CareerLeader Assessment is based on solid, ongoing scientific research and will take approximately 1-2 hours for you to take online. If you and your Career Coach determine this self-assessment will be helpful to you, the self-assessment directions and access will be sent to you after your meeting with your Career Coach. Then you will be asked to schedule a follow-up career coaching appointment for a discussion about the results and to review your personalized report.

Your CareerLeader results will suggest how to effectively approach a business career, match you to specific business-related industries and careers, and help you to identify important organizational cultures that are likely to be the best fit for you.

More than 90% of the top 100 U.S. and global business schools use CareerLeader that sets the course for career success and satisfaction.
