The John Felice Rome Center of Loyola University Chicago welcomes you to Italy for a unique adventure this summer. Summer 2022 marks the fifth year of this Fusion program, in which students dive into photography and the culinary past and present of Italy. In five weeks you will learn everything you have always wanted to know about the city of Rome, as well as one of Italy’s most beautiful and most famous regions: the Abruzzo. Together we will explore the history, the culture, the customs and the cuisine of the city and countryside of Italy, and you are invited to explore and to see it all through a different lens – in the literal sense of the word. This “Fusion Experience” brings culture and digital photography together in one package. You will learn to observe and to record both the past and the present, and to appreciate the widest variety of flavors and tastes, to grasp culture and nature, and to understand how it has formed a city, a country, and its peoples throughout the centuries – until the present day!

After two and a half weeks in Rome, at the campus of the John Felice Rome Center, you will transfer to the breathtakingly beautiful region of Abruzzo. From there you will explore this spectacular part of Italy, learning about many aspects of life in the countryside, which is so rich in history and traditions, especially when it comes to food and wine.

**Course Description**

Perhaps the best way to learn about the Italian people is to examine the history of the country’s gastronomy and its gastronomic traditions. By learning about its individual products and different time periods throughout history together we will gain a greater understanding of Italian history and culture.

Food is a key for understanding the past and Italy is especially interesting in this respect since modern Italian identity is based, in large part, on food. And many Italian products, which were grown in the countryside have been used by chefs and nonnas alike to compose dishes in the city. By learning about these individual products we can gain insight into Italian culture and history.

While in Rome students will get a chance to look at how the past has shaped what the people of Italy (and more specifically of Romans) eat today. And, because Rome has a number of neighborhoods each distinct in their own culinary traditions, we will spend our time in the Eternal City examining the local food culture, in addition to examining urban foodways.

When we travel to Abruzzo – in addition to exploring (and tasting!) Italian products themselves (cheese, chocolate, wine, etc) – we will examine the specific traditions and history of the region’s food and compare them to those we saw in Rome. This context will allow us to examine two different local food cultures, both urban and rural.

**Learning Outcomes**
On completion of the course students should be able to:

- Analyze and critically evaluate ideas, arguments and points of view regarding culinary history
- Develop a more sophisticated understanding of Italian history through the country’s gastronomy, especially that of urban and rural Italy
- Identify how food and drink has shaped Italy today
- Understand the importance of knowing where what we eat comes from and how it is made

**Required Text / Materials**
There are no required texts for this course; all required readings will be on Sakai. It is a good idea to download them before leaving for Abruzzo as internet is limited there.

**Attendance Policy**
In accordance with the JFRC mission to promote a higher level of academic rigor, all courses adhere to the following attendance policy. Prompt attendance, preparation and active participation in course discussions are expected from every student. Any lateness or leaving class early will impact the final course grade.

Attendance is mandatory at every class meeting for each course. Absence due to sickness or injury needs to be corroborated by a doctor’s note. Students arriving late to class twice will be credited with one absence in accordance with the JFRC’s Attendance policy. Three (3) absences will result in an automatic failure, “F”. Travel does not constitute reason to miss class.

**COVID and Campus Health**
The JFRC will conduct all activity according to policies and best practices as prescribed by the Italian Ministries of Health and Education and in consultation with the Loyola University Chicago main campus. At present masking, social distancing and periodic testing are required to keep our campus and community safe. A complete set of COVID policies, taking into consideration the most up-to-date mandates and recommendations, will be provided at the start of the semester. These policies will be subject to change as the situation warrants. Please note that due to social distancing requirements, JFRC class capacities are rigid. Therefore special requests for extra seats, overrides or unofficial auditing will not be permitted.

**Assessment Components**

- Participation 20%
- Essays 20%
- Roman Neighborhood Presentation 20%
- Wine Presentation 20%
- Final Exam 20%

**Class Participation (20%)**
For spirited discussion, we will need your active attention and participation. Class participation grades are not automatic. They are based on oral contributions to the collective learning experience of the class. Participation means active engagement in the course: being consistently prepared for class (having carefully read that day’s assignments), asking questions, responding to questions, offering your own insights and opinions, and attentive listening to others. Students who are by nature more reluctant to offer their input will not be penalized; however they are encouraged to participate fully in blog writing and other written assignments, outside of discussions.

**Essays and Reflections (20%)**
All students are required to write several essays throughout the summer session. The essay are intended to provide an opportunity for students to record information and observations (Be specific!) and integrate class readings, discussions, as well as their own personal experiences throughout the summer. More information will follow.
Students are expected to use correct grammar and spelling in their entries. Failure to do so will result in a max 10% grade reduction. Students are encouraged to use photographs/videos in their entries.

**Roman Neighborhood Presentation (20%)**

For the first presentation – which will account for 20% of your grade – students will be divided into three groups and will be assigned a neighborhood in Rome for one of two presentation days (July 3/4). Students will act as guides, leading the rest of the class around the neighborhood and illustrating the food history and food culture of the area.

- Presentations should last **30-45 minutes**. A timer will ring at the 45 minute mark and students will be asked to conclude immediately at that point.
- Presentation topics are as follows: (1) the Jewish Quarter or Ghetto, (2) Esquilino, both the new and old markets (3) Trastevere.
- Students are encouraged to meet with the instructor beforehand in order to discuss their presentations and to receive the necessary readings, which will serve as the starting point for their presentations.

**Abruzzo Wine and Viticulture Presentation (20%)**

Following a visit to a winery and a wine practicum by Prof. Simari, students will be asked to give a 10-minute presentation on one wine from Abruzzo. This presentation will account for 20% of your final grade.

- Presentations should last 10-15 minutes. A timer will ring at the 15 minute mark and students will be asked to conclude immediately at that point.
- Groups of students will be assigned one bottle of wine from among the three most important wines of Abruzzo: Trebbiano, Cerasuolo or Montelpulciano, and asked to speak about the history of the grape and the wine, the producer etc.
- Each group will be assigned to present their bottle of wine during one of our dinners in Abruzzo. After the presentation we will taste the wine as a class.

**Final Exam (20%)**

The final exam is the final step in the sequential learning process the course involves. In this exam you will bring together the various concepts/topics we have studied. The exam will take approximately 120 minutes to complete and is closed book/closed note. It will constitute 20% of the final grade. This is the only time the exam will be given. No alternative exam dates will be offered.
