

I am running for Senator this term because I joined SGLC this last year during our e-learning era and I really got to enjoy the organization and I feel like I am able to work through this wonderful organization to do my part and try and better our Loyola community. I have learned so much about the organization over the past year and I'm really excited to try and secure a more internally-facing role because I feel like that is where my strengths lie in terms of relationship building, communication, and the atmosphere I can bring to a conversation or interaction. SGLC is an organization dedicated to helping our student body here at Loyola and I really want to do my part in making sure that it is succeeding to help said student body in every meaningful way; as well as helping to ensure that the organization continues to make such excellent strides in achieving our collective goals!
