Preditors: Producing and Editing for Film & Digital Media

COMM 374: Preditor: Producing and Editing for Film and Digital Media
Fall 2020, asynchronous, online

Instructor: Elizabeth Coffman, producer/director/editor for FLANNERY
Contact: E Coffma@luc.edu or cell—813-789-4645

Description--A "preditor" is a new title in film and television that describes producers who generate ideas and assist with developing and editing documentary and nonfiction formats—often reality television but other kinds of projects too.

For this course, we are using the term to cover what the independent filmmaker often finds themselves doing—writing/findings/clearing a script, writing loglines and budgets, pitching for money, and directing/editing a trailer or scene to help raise money. This course covers idea development for scripts, writing loglines and proposals, raising funds, archival research and clearance, editing footage, producing trailers and an overview of final post-production needed for distribution.

Students are encouraged to bring existing audio and/or video footage to edit for a project with this lab-based course.

Course Objectives:
Producing Film and Digital Media examines how to create, budget, finance, visualize and translate knowledge into accessible media formats to sell and distribute. Students will research story topics, develop proposals, pitch decks, practice 'pitching', research casting, identify financial support, potential distributors and translate their ideas into a prospectus and related formats. Students will produce and deliver (both individually and as groups) presentations, web sites, short videos and/or ‘teasers’ while learning standard software for producing/editing feature films. Students will each propose their own project, but may work in groups for a final project—as long as you follow COVID safety guidelines—to deliver materials. We will review relevant films, interactive sites, games, educational materials and other media opportunities.

Learning outcomes:
Story development for multi-media environments, prospectus/preproduction work, “public” speaking, movie budgeting basics, collaborative skills, fundraising, persuasive writing techniques, networking techniques, impact design, broadcast requirements

Required Readings and Materials:

- Articles, available on Sakai
- Computer with Wifi access; back-up hard drive for media
Adobe Premiere Pro CC, available via LUC

If you have questions, concerns or documented disability, please see me and/or the Wellness Center before there is a problem. Turn in documentation to Wellness Center.

**Grade Requirements and Course Expectations:**

Work must be turned in on time. Expectations are by Wed, before midnight of the week assignment is due. Speak with me before the deadline if you have a conflict. A late grade results in a 10% reduction per week. Always Backup a copy of your work for yourself (outside of Sakai) in case my copy disappears. Written work must be typed and must be done for this course. Plagiarism (the copying of material without appropriate acknowledgement) results in an “F” for the course. Syllabus may change during the semester. You are responsible for checking Sakai site every week.

Grade scale is standard but based on numerical scores. There is no final exam in this class.

**Course Outline:**

**Week 1** Producing in a Pandemic Aug. 27th

- Producing for the 21st century web, television and feature film industry
- What are the responsibilities of the independent producer?
- Infrastructure of the broadcast media business; transmedia and interactive possibilities for entertainment, information & education
