BRINGING LIGHT TO DARKNESS
COVID-19 and Survivance of American Indians and Alaska Natives
A special seminar offered by the Parkinson School of Health Sciences and Public Health

Wednesday
April 27, 2022
2 p.m. (CT)
Virtual via Zoom

Examine the challenges faced by Native peoples as a result of the COVID-19 pandemic: their vulnerability, the heartbreaking battle to constrain contagion, the lack of resources to care for those afflicted by the virus, and the mounting consequences for individuals, families, and communities.

FEATURING Spero Manson, PhD (Pembina Chippewa), a distinguished professor of public health and psychiatry, director of the Centers for American Indian & Alaska Native Health, and Colorado Trust Chair in American Indian Health within the Colorado School of Public Health at the University of Colorado Anschutz Medical Campus. His programs include 10 national centers, which pursue research, program development, training, and collaboration with 250 Native communities. He is widely considered one of the nation’s leading authorities in regard to Indian and Native health.
