THIS IS US:
GENERATIONAL EFFECTS OF PAIN, TRAUMA, AND ADDICTION IN FAMILIES

6 CEUs/CPDUs

This seminar will provide a solid understanding of addiction, grief and loss, pain and trauma, and the relationship between such. We will achieve these objectives through the television series “This is Us.” We will look at each character within the story, as well as the relationships between each family member and how this affects their self-image and their relationships. We will view various scenes which will provoke discussion and other interactive exercises to determine diagnoses and effective treatment interventions.

Presenter: Christina Jones, LCSW
