MPA Request for Accommodations

Students taking the Math Placement Assessment may request accommodations due to their documented disability. In order to be considered for accommodations for the MPA, students must submit this form at least one week in advance of their scheduled MPA date. Students may be asked to transfer the MPA to an alternate testing date if the request for accommodations requires additional/extensive coordination. Documentation of the student's disability must be included with this form. Individualized Education Plans, 504 Plans, documentation from a high school regarding accommodations, and documentation from a qualified health professional are examples of appropriate documentation.

Name: ___________________________________ LUC ID: 0000_________

Email: ____________________________@luc.edu Phone: _______________________

MPA Date (if known): __________________________
