I. Roll Call
- Speaker Dumbauld calls meeting to order at 4:15 PM.

II. Visitors and Guest Speakers
a. Tim Cunningham
   I’ve been here for about 10 years and I try to work closely with student government. This is your chance to grill me on issues around campus that have to do with campus safety.

   Senator Lurquin: Is there additional security on Winthrop for harassment incidents?
   Cunningham: There have been three incidents, caught one guy, not a student or from this country. He is in cook county jail, on $100,000 bond. This is incredibly difficult to get in Cook County. His next court date is tomorrow. He is gone, and wont be coming back. He may be deported because of this. One other incident occurred on the 19th, two guys grabbed a student on the sidewalk, still looking for these two, haven’t seen them on campus in person or on video, they will be arrested if seen. They were drinking at a bar and wandered this way. We received a lot of news attention that night, and we are playing specific roles to address it and catch these guys. There was another incident at Mertz the other night, where two guys were hitting on girls, grabbing their hands, stroking faces, and other stuff like that, both men were arrested, and had criminal histories. One was charged with assault sitting on a $10,000 bond at county, the other was charged with simple battery, awaiting trial. Knowing what we know about this incident has dictated how we change our patrol. We keep what we do, partially discrete so the bad guys don’t find out about it. We have pictures of the guys, and they are down at state for visual recognition. We need students to report things to us as soon as they happen. We can stack cases onto each person and get good charges on them.

   Speaker Dumbauld: During campus safety forum, we discussed things we could do for safety on campus in the future, what has came out of that forum?
   Cunningham: One of the big things that came about was that we have to send out safety tips now, we have worked with the wellness center to not promote victim blaming and change it into harm reduction. We are changing things and making them better.

   Sen. Meis: After 10PM all the buildings lock and students can’t get in with their ID’s and we are curious why?
   Cunningham: I completely understand that, but I believe it would be abused. To swipe into these, this would have to go through residence life. Problems could arise if 16,000 people had access to all buildings all the time. It could cause more harm than anything else.

   Sen. Anderson: How is security going to be around Halloween, with clowns and everything.
Cunningham: I can’t arrest every clown, it relies on you, if you don’t like it call and report it and we will come and report it. We usually have more issues with drinking on Halloween though. Our other concerns are that there have yet to be any clowns hurting anyone yet, its just bored losers. These are things that are going to rely on you, it may just be a random person wearing a mask, if anything doesn’t feel right, call us and let us check it out. Call 911 if you aren’t on campus, that is our job.

Cunningham: Safety walk, we are bringing this back to walk around campus and near campus to identify what doesn’t feel safe, anything at all that doesn’t feel safe or it should be changed. Or if we are wondering about anything. Campus safety officers walk around and point out things you may or may not have noticed. 6:30 tomorrow in the Den. You can come for as short or long as you would like. Tell your friends. Free candy. And glow bracelets! Anything else? Thank you!

III. Approval of Minutes
   -Speaker Dumbauld: Next item on the agenda, minutes, minutes will be approved.

IV. Unfinished Business
   - None.

V. Committee Reports
   Standing Committees
   1) Academic Affairs (Hornik):
      1. Hello everyone I hope midterms and exams are going well, we support you and all of your academic endeavors. November 7th, Monday event.

   1) Allocations (Mannam):
      1. Spot two budget hearings, we will be sending out decision letters at noon tomorrow, committee will be meeting on Thursday per usual, 7PM. Trying to reach out to people and organizations, to see how we could make allocations more visible, we aren’t scary I promise! We do open houses, we held a budget request workshop, not many people showed up, any suggestions?

      Sen. Davidson: Went to a new student org orientations, people at those would appreciate it.

      Sen. Wild: Did I already tell you the thing about having the flyers to hand out at the big RSO meetings?

   1) Justice (Mifsud):
      1. Good afternoon everybody, tabling went well and we received 145 responses to our survey, 40% of students knew what lit was, the rest did not. 80% would support campus wide band of cigarettes. 49% of students knew about JEP and 92% supported it. 6PM in Mulaney theatre, hopefully a lot of attention. We are focusing on what else we can do and that is all. Mass email, and vote on it.

      Sen. Tait: For voting do an email.

      Sen. Gandhi: Last year referendum, the turnout was not very high for the total number of responses on smoking ban on campus.
Sen. Mifsud: Only the people with strong opinions respond
Sen. Hornik: I know that the president, a sked us to bring it to
USenate.
Sen. Mifsud: It is on our list of things.

1) RCDC (Flowers)
   1. Davidson: So the closest thing coming up is partnering 27th from 2-4, iced
      coffee and donuts, everyone come hangout, next to the SGLC office in the
      commuters office. Zoe made a survey about the cable on campus. Aramark
      will be at senate next week, prepare questions. Allocations is 7thursday ours
      is at 6PM.

1) Safety and Wellness (Joseph)
   1. Bucholz: I went to wellness committee meeting, not that eventful, but we
      talked about maroon and gold standards at the wellness center. Starting next
      semester possibly, working to write hard copies for active shooters, a drug
      for dying people and stuff. Tomorrow is our safety walk 6:00 PM Damen Den.
      Lastly, we finalized the date for our fishbowl forum come ask any questions
      on November 16th.

yy) Advisor Report (Moore and Mmeje)
Advisor Moore: I haven’t been here in awhile, I have missed you all. I get to connect
with some of you individually, but if we haven’t and if you need anything at all, make
sure you know K.C and I are here, feel free to email or reach out to us. We are here.
Even if we physically are not we are committed to supporting you all in any way you
need. So I don’t know everybody’s names. I feel bad about that, sprained neck no
retreat, lots of reasons, but I haven’t gotten to know everybody. I will learn everybody’s
names and if I miss any, I will have some sort of consequence. I only missed one name
last year. Is this something we would like to do? I think its fair that in two weeks time, I
will be tested. If I miss one or more, Fun sized candy. I can dance, but I don’t know if I
can do that in this setting.
Sen. Diop: Since we have been having scare issues, maybe you have to dress as a clown
and hand out candy.
Advisor Moore: Subject to my approval, I draw a line at costumes. We will do a treat of
some form. I believe there were more of you, since last time. That’s my promise to y’all.
Anything you guys, want to ask me, let me know, I can be a resource for you.
Sen. Tait: K.C brought up statistical data on JEP, and it would be nice to have an
administrative perspective on this issue. There is a resolution for SGLC to approve and
support JEP.
Sen. Mifsud: we want to gain more support for this policy, so we can move forward on
working on this, this upcoming semester.
Advisor Moore: Revisit the legislation from previous years on it, and keep talking with
administrators, and this will help with how we shape that legislation. We can only pass
an act or a resolution, it will be SGLC’s name on this initiative. Some things have to be
changed at the cabinet level and different things like that, so you will need some
momentum to get this rolling. We are familiar with the perspective of the university, and are here to talk through things and advise whomever needs it. From my perspective, one thing I will say is K.C will be able to speak to that.

Speaker Dumbauld: One thing K.C mentioned is that we are at our strongest with the student body behind us.

Advisor Moore: The reason why you all are spending SGLC resources on lit, is because the more we promote it the more we can use that with administration, to show them students on campus are noticing issues. Let’s utilize and promote that tool. Seed lit, promote it, and have students vote! Lit will help make our job easier.

- Self Care Tip.

xx) Judicial Board (Pine)
How are you? Are midterms okay, basically, nothing new, but to just go over our meeting, we reviewed articles closely, and talked about what our bylaws will look like. If you see Jax Farquar congratulate her on her Pro temp. I also posted on the Facebook group our office hours, for any questions about legislation or anything like that, let us know.

Speaker Dumbauld: Library?
Chief Justice Pine: We are still working on organization, the PC computer filing cabinet left side is where everything is at right now. Let us know with suggestions, send me an email!

zz) Executive Board (Chavez and Roberts)
Pres. Chavez: How is everyone doing? Thriving, surviving? Halfway through the semester, its almost holiday season! So if you come to senate you’ll be receiving things! Do you know what MAP is? Given to Illinois residents by government. Like a Pell grant for Illinois residents, because of politics in the senate last year, there was a lack of funding so Loyola had to find $11,000,000 to give students funds to remain in their schools. With a lot of efforts from Anusha and other senators from the MSP committee we passed map legislation and lobbied and we got them to pass the budget, to fund map for last year. However, MAP isn’t funded for this year again, so we are trying to work on that again this year. Phillip Hale, VP of Gov. Affairs has been working with this topic for a lot of time, Anusha has worked very closely with him, Adam has worked closely with him, we are going to host a map summit, Sat, Oct.29th in Kasbeer hall downtown and every school in Illinois is invited. We are organizing the event to get advocacy and 101. The idea is to join together, so when this happens again, we will be ready. So when they have to vote we don’t waste time with politics. Starting check in at 9, it goes until 3. Lunch provided. You have to sign up. Padfolios, we had originally put in the order, but now I need all of you to pay if you want one. We have to go through the steps. I am working on that.

Sen. Diop: IF we put in the order will they arrive before the end of the semester?
Pres. Chavez: YES
Pres. Chavez: Friends giving, planning for that event starts today.

COS Hines: Oct 30th Dumbach trick or treat, SGLC should do it. 1-4PM set up is 12-1PM. If you want to come, I’ll take your name.
AG Chmielewski: Lots of organizations are there, and it is a good way to get SGLC’s name out there. Advertising, it is pretty cool.

Pres. Chavez: Build community and help ROPO, you don’t have to stay longer than you want to.
COS Hines: Doodle is on Facebook for friendsgiving, there is a potluck, please respond to the doodle.
CFO Henry: Last week I talked to the advisors and they are all for budget transparency, I will be talking with exec Sunday, I’ll be mentioning our budget on the floor from now on quickly. Caution or concern will be talked about Sunday, if students look at our budget, and see anything they don’t like, they will raise controversy and we need to be able to respond in an educated manner.
CEDIO Sanchez: Intercultural dialogue program or space on campus. NWU has a sustained dialogue program, just like this. Georgetown does as well and I have reached out to both of these to try to help students with different backgrounds correlate and to bring perspective together. If anyone is interested in this please let me know, email me! I have also been thinking about building self identified healing spaces. Like art on campus, identity based healing spaces, lots of people love it.
-Senator Hummel left at 5:19PM because she blows.
CCO Kovathana: 1 week would be great for letting me know on working on things, try to be vigilant so we can get things together well, and on your own personal accounts please share stuff! Check out her wall event, Siane from orange is the new black is coming to Loyola to speak about immigration and undocumented immigrants, its an initiative close to our mission. November 11th DOP event. Ask me about DOP after meeting if you’d like.
Assoc. CCO: At least one day in advanced would be awesome. It is tough to get a big turnout in one day.
Speaker Dumbauld: Next item on the agenda is new business and discussion. Tabled until next week is smoking stuff.

VI. New Business and Discussion
   a. CSO McNelis : Presentation! It is attached to this presentation. Greek life loves 100% cotton t-shirts, we shouldn’t do that, because it kills bees. We aren’t very bee friendly. So what he was thinking is we could campaign so organizations will commit to an organic cotton contract. If anyone has any other ideas about bees? Anyone who has free time or is interested reach out to Andrew or myself! Corn! And diverse student diets, you at anytime are eating or drinking corn, it is in everything. So something I learned is that corn, wheat, rice and soy make up a lot of our diets. So that isn’t super healthy in terms of things, so this shows us that we should seek out non crop diets whenever possible. Campus food options are trying for diverse fruits veggies and corn. Anyone who is jazzed about this seek this out. Rad solar panels. Improving our lead rating could be done by this. If anyone is jazzed by solar panels, get in contact with me! If any of you are interested, why not.
   Environmental science curriculum; environmental program is missing the
chemistry behind it, and we could use some more chemistry (environment based) classes. A more rigorous curriculum. So, that conversation can be had at multiple levels. I know it is something kids have talked about. I think with our leadership added to this program, and others, it could help us help Loyola. The honors program wants more women and minority authors in the freshman year reading list. Turns out they were all white dudes. Any other ideas, let me know. CORN BEES COTTON HONORS.

-Speaker Dumbauld: Moving on, first reading of RCDC printer funding act.
Speaker Dumbauld: Questions?
Sen. Mifsud: Chief CFO Henry
CFO Henry: We tried doing this last year, but the advisors were not for it. Do we know if they like it more this year?
Sen. Davidson: When we brought it up, K.C was there and did not object against it.
CFO Henry: Once upon a time, I thought somebody would help us pay for these.

Sen. Davidson: They are helping us. We are requesting $2,000 but, it is about $6,000. We are requesting for both printers.
Sen. Buchholz: When would these be implemented?
Sen. Davidson: Depends on funding and the timeline.
Sen. Gandhi: New senators are curious about discretionary funds.
CFO Henry: The senate discretionary fund is a fund in our internal budget not allocated for anything in certain, it is a fund that anybody from legislative can ask for a certain amount by writing legislation. There is about $3,750 in this part of the budget.

Sen. Buchholz: What has it been used for in the past?
CFO Henry: It is a relatively new thing, so we are learning about it now, it had been used for the Justice committee before. We used to allocate this money into all of the committees, but we decided this way was easier and more productive.
Sen. Buchholz: Anusha use a QR code for LIT post and stuff.
CF Henry: We are here to help if you ever need help communicating with administration or anything please let Anusha or I know.
Speaker Dumbauld: Internals will be next week to fill 3 seats, packet due Sunday at midnight. Packet will be published soon. If possible it’d be great to have some upperclassmen. Any questions? We will send out the method via email.
CFO Henry: Max and Sidney emailed me wanting to use funding stuff, so other chairs let George know we need that.

-Speaker Dumbauld: Onto announcements and upcoming events.

VII. Announcements

-Sen. Buchholz: walk tomorrow, see you there.
-CSO McnNelis: There is a lot for anyone in science careers, this week regarding careers in science fairs, talk to me if you’re interested.
-AG Chmielewski: So this week, if you guys saw that it is Derby Days, through Sigma Chi a fraternity I am in for Huntsman Cancer Institute, all proceeds we raise will go to this institution, there only goal is to cure cancer, our goal is to raise $60,000 this year. We have a volleyball tournament today at 7 PM and other events this week, also please donate. Ask me for the link! Check my Facebook.
-Novak: Agape Latte is tonight at 7:30PM in Damen den, first agape latte of the year. 1hour of fun and desserts you can eat up, first 30 minutes there will be a guest speaker, tonight’s will be from SDMA, I’ll be there, there’ll be another next month than a few next semester. Definitely come.

-Speaker Dumbauld adjourns the meeting at 5:51PM.
