Administrative History

Concerned with the presence of disease and the lack of proper health care in the Evanston area, the Visiting Nurse Committee comprised of Mrs. Peter Lutkin, Mrs. Charles Chandler, and Mrs. Roger McMullen founded the Visiting Nurse Association of Evanston (later known as the VNA North) in 1897. In memory of her daughter Edna who died from diphtheria, Mrs. McMullen contributed four months' of a visiting nurse's salary toward the experiment. Miss Frances Faltz, who had been Edna's nurse, became the VNA's first visiting nurse in 1898.

The nurses provided physical and emotional comfort to people in the community who might not otherwise be able to afford health care. Local philanthropic organizations soon became involved in supporting VNA North's mission, and VNA North slowly expanded its operations, becoming incorporated in 1912. Although they had not originally cared for patients with communicable

diseases, the visiting nurses began to do so in 1926. Continuing to add services as the needs of Evanston and the surrounding communities dictated, the nurses educated patients about proper hygiene and nutrition as ways of preventing disease. Moreover, they were involved in issues of pre-natal care, parenting classes, infant welfare, tuberculosis, venereal disease, mental health, polio, physical therapy, hospice care, and other social services. The effects of historical events such as the Great Depression and World War II are evident throughout the collection.

During its existence, the VNA North was affiliated with the Metropolitan Life Insurance Company, Evanston Hospital, Loyola University Chicago, John Hancock Life Insurance Company, the National Foundation of Infantile Paralysis, as well as numerous other organizations. By 1984, VNA North merged with the VNAs of Glenview and Skokie in order to serve twenty-nine communities. Due to the challenges created by the growth in managed care, in 1996 VNA North affiliated with Evanston Hospital Corporation (later known as Evanston Northwestern Healthcare). In 1997, VNA North was fully integrated into Evanston Northwestern Healthcare and was renamed ENH Home Services.

Scope and Content

The Visiting Nurse Association North collection consists of 4.75 linear feet (7 boxes) of materials, spans the years from 1898 to 1997, and documents the history and activities of the organization. The collection has been divided into seven series and consists of organizational materials, newspaper clippings, Evanston Hospital Corporation/Evanston Northwestern Healthcare affiliation, commemoration and celebration, photographs, videocassettes, and memorabilia.

Series 1: Organizational Materials, 1903-1997, undated, Boxes 1-3

Includes historical sketches and data, annual reports of the various VNA divisions, meeting minutes, lists of the board of directors, general correspondence, the VNA affiliation with Loyola University Chicago, nursing documentation, letters of appreciation from patients, and personnel manuals. This information documents the evolution and expansion of the organization, its affiliation with various community organizations that assisted with funding, the role of the nurses in the community, the various diseases and medical problems that affected the Chicago area, the issues of segregation, and how historical events such as the Depression and World War II affected the organization. This material reveals the concern and commitment of the nurses and the importance of the emotional and physical comfort they provided to their patients. The series has been organized so that the historical information appears first in the form of historical sketches and data; the rest of the files then follow in alphabetical order. Papers within each folder are arranged chronologically.

Series 2: Evanston Hospital Corporation/Evanston Northwestern Healthcare Affiliation, 1997, undated, Box 3

Includes correspondence from employees of VNA North to Ray Grady from the Evanston Hospital Corporation concerning the merger of the two entities. This correspondence outlines the concerns of VNA employees and the results of their meetings with Ray Grady. In addition, there is promotional material regarding the name change and merger of these organizations.

Series 3: Commemoration and Celebration, 1997, Box 3

The bulk of this series contains fliers, press releases, photographs, letters of appreciation, and newspaper articles about the ceremony held on September 21, 1997 to commemorate the 100 years

of service provided by the nurses of VNA North. Also included is material from the Chicago Catholic Women's benefit luncheon and tribute to the VNAs throughout Chicagoland.

Series 4: Audiovisual/ 3-D Objects, [1898]-1997, undated, Boxes 4-7

Details the history of the VNA North and includes photographs and slides of VNA office staff, nurses, and patients. These photographs reveal the ways in which the nurses served their community through visiting their patients and providing educational and therapeutic services for the elderly, the young, expectant parents, and the disabled. This series also includes clippings describing the role of the public health nurse in the community, maternity care and infant welfare services provided participation in community events, affiliation with the North Shore Association for Crippled Children, and World War II service. There are also three VHS videocassettes, a scrapbook and guest book, as well as memorabilia including a hat and pen from Evanston Northwestern Healthcare.
