

It is our pleasure to invite you to attend the Third Annual
Undergraduate Summer Research Intern Scientific Symposium

Each of this summer's interns will present a 12 minute summary of his/her research findings from this summer. Our young investigators and our participating HSD faculty and their staff would be delighted if you could be present for this symposium to help acknowledge our young student investigators' efforts and their proud accomplishments in research science.

The program will be held in the Cardinal Bernardin Cancer Center second floor auditorium on July 30, 2018, beginning at 10:00 a.m. Lunch will be served at noon. We would be very glad if you would join us. R.S.V.P. to: snicolai@luc.edu

Michael I. Nishimura
Professor
Dept. of Surgery
S.S.O.M.

Peter W. Breslin, S.J.
