A human exploration

Loyola's social sciences majors include disciplines such as psychology, anthropology, and political science. Through them, you will investigate and examine the fascinating aspects of human behavior and interaction. “The many departments and programs within the College of Arts and Sciences invite all Loyola students not only to lay a well-rounded foundation for life-long learning through the Core Curriculum but also to embrace a way of thinking critically that unleashes their deepest intellectual passions,” says Thomas Regan, S.J., dean.

ALUMNI FOCUS

“I am beyond thankful for the professors who have helped me grow from sophomore to junior to senior year. I am graduating as the person I am today because of Loyola’s sociology and political science professors.”
